Sussex County Paramedics provide Advanced Life Support to patients when quality critical care is needed.

Sussex County's Emergency Operations Center handles more than 85,000 calls each year for police, fire and ambulance services.

Sussex County provides sewer services to more than 47,000 users making it one of the largest functions of county government.

The recently renovated Milton Library is one of three county-owned libraries in Sussex County.

ROBERT L. STICKELS COUNTY ADMINISTRATOR

Sussex County

ADMINISTRATIVE OFFICE BUILDING 2 THE CIRCLE P.O. BOX 589 GEORGETOWN, DELAWARE 19947 TEL: 302-855-7742

FAX: 302-855-7749 E-MAIL: administration@sussexcountyde.gov

December 7, 2005

The Honorable Sussex County Council President, Members of the Sussex County Council, and the Citizens of Sussex County:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) for the Sussex County Council for the fiscal year ended June 30, 2005. This report includes the annual financial statements as required by Delaware Law, presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America.

This report consists of management's representations concerning the finances of Sussex County, Delaware (County). Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. The County has established a comprehensive internal control framework that is designed to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the presentation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's internal control framework has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by Jefferson, Urian, Doane & Sterner, P.A., a firm of licensed certified public accountants. A goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2005, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon their audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the year ended June 30, 2005, are fairly presented in conformity with GAAP. The auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The Single Audit section of this report includes these reports and related information.

A GAAP requirement is that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Sussex County's MD&A can be found immediately following the report from the independent auditors.

Profile of Sussex County

Sussex County is the largest county in Delaware, comprising a total land area of approximately 938 square miles, or approximately 46 percent of the State's total area. The county is bordered on the east by the Atlantic Ocean, on the north by Kent County, Delaware, and on the south and west by a portion of the State of Maryland east of the Chesapeake Bay. The county is within 200 miles of New York City, Philadelphia, Baltimore, and Washington, D.C.

The County Government was established on July 23, 1970, replacing the Levy Court Commission with a Council-Administrator form of government. The government is composed of a legislative body, the County Council, and an administrative body that includes operating departments and offices, some of which are administrated by officials elected atlarge. The County Council, which has legislative powers, consists of five members representing each of the County's respective districts. Each council member is elected to four-year staggered terms. The County Administrator, County Finance Director and County Engineer are appointed by the County Council. The County Administrator is responsible for the entire range of executive, administrative and fiscal duties performed by all County departments.

Sussex County, Delaware, is a rural county with beaches along the Delaware Bay and Atlantic Ocean. Sussex County is the fastest growing Delaware County, with a population that grew 38 percent between 1990 and 2000. The U. S. Census Bureau estimates that the Sussex population increased an additional 10 percent since the 2000 Census. Sussex County is a popular beach resort area and also a popular shopping attraction.

The County Government provides a variety of services including sewage collection and treatment, paramedic services, planning and zoning, and the operation of libraries. The County also owns and maintains the Sussex County Airport in Georgetown, the operation of which is leased to an independent contractor. The County provides paramedic services for the entire county. The Department of Emergency Operations handles dispatching 911 non-police calls. The Department of Libraries includes three County-managed libraries and a bookmobile. The County has approximately 500 employees, of which 97 percent are full-time and 3 percent are part-time employees. The Clerk of the Peace office issues marriage licenses and is administered by an elected Clerk of the Peace. An elected official also manages the Recorder of Deeds, which handles the recording of deeds and other legal documents. Elected officials also direct the Register of Wills and Sheriff's Office. The Sheriff's Office is responsible for delivering court-related documents.

The County provides substantial grant funding to volunteer fire departments annually. The County also assesses, bills and collects property taxes for eight school districts, as well as for the County government. The County also is the primary funding source for 11 local libraries,

which are managed by independent library boards. The County also partially funds the cost of 24 additional Delaware State Police in Sussex County. The County has entered an agreement with the State of Delaware to partially fund an additional eight State Police in Sussex County over the next two years. This means that there will be 32 more State Police serving Sussex County in addition to the State of Delaware allotment.

County sewer and water districts compose a large portion of County expenditures. The County's growing sewage collection and treatment facilities handle over 47,000 current customers. There are 12 individual operating sewer and water districts managed directly by the County, in addition to various subdistricts and expansion projects. There are five additional approved sewer districts in design and/or construction phases, three of which should be operational during fiscal year 2006. The number of sewer and water customers has increased 34 percent during the last five years, and 60 percent over the last ten years. The County is aggressively working to provide additional sewer service to meet our environmental needs. Each sewer district is treated as a separate fund. Combined financial information is included for these sewer districts in the financial section.

The annual budget is recommended by the County Administrator and approved by the County Council prior to July 1 of each year, which is the start of the County's fiscal year. The budget serves as a financial guide for the County. The budget includes a five-year capital project plan, with proposed financing for projects. Please see note "A" - Section 18 on page 38 and 39, for additional budget information. Budget-to-actual comparisons, on pages 57 through 66 and on page 68, are also included.

Factors Affecting Financial Condition

Local Economy

Agriculture, tourism, healthcare, construction, retail sales and education are leading industries in Sussex County. Sussex County is the largest poultry-producing county in the United States, as was the case in 1997, 1992, 1987, 1982, 1978, 1949 and 1944. Two of the twenty largest U. S. poultry companies, Allen's Family Foods, Inc. and Mountaire Farms, Inc., have headquarters in Sussex County. Perdue Farms, Inc. also has processing facilities in Sussex. Over 188 million broilers and meat-type chickens were produced in Sussex County in 1997. Soybeans, corn and other vegetables are also important agricultural products. Sussex County ranks 36th out of 3,075 counties in the United States for value of agricultural products sold, per the U. S. Department of Agriculture. There are 416 parcels covered by Agriculture Preservation easements now in Sussex County protecting over 41,000 acres as agriculture working lands. State and County funds were used to purchase the development rights for these farms, which permanently preserve these properties for agricultural uses.

Residential home construction has boomed in Sussex County. During fiscal year 2005, approximately 3,288 permits for new dwellings were issued, which is more than double the number of permits issued ten years earlier during fiscal year 1995. This is 18 percent more than the 2,797 dwelling permits issued during fiscal year 2004 and 29 percent more than the 2,558 for fiscal year 2003. There has been a steady increase in construction permits and values. This residential housing boom can be partially attributed to the quality of life in Sussex County, the seashore, and the reasonable cost-of-living in the county. Low state, school and county property taxes are also factors. Sussex County attracts a growing number

of retirees. Delaware's Health and Social Services Department projects a 44 percent increase in the number of Sussex County residents 60 and older during the next ten years.

Three hospitals are located within the county, in Seaford, Lewes and Milford. Also throughout the county there are other subsidiary medical facilities. The Milford and Beebe Hospitals are planning major expansions during the next few years to meet growing demand. Assisted living facilities and nursing homes are sited in Lewes, Georgetown, Milford, Seaford, Delmar, Millsboro, and Greenwood.

There are eight school districts in Sussex County, plus one Charter School and private schools. The Delaware Technical and Community College, at its 147-acre campus in Georgetown, offers Associate college degree programs in health, business, public service, engineering and industrial education. This Community College has established connected degrees with various other institutions in the region that enables one to graduate with an Associates Degree and transfer to a four-year program at another college. Delaware Tech also provides an accelerated English and Math Program for Sussex County Middle and High School students. The University of Delaware, Delaware State University, and Wilmington College also offer courses in Georgetown at the Delaware Technical and Community College. Some four-year degrees, Master degrees, and a Doctoral Program are available there. The Sussex Technical School District and Delaware Technical & Community College also work closely with county employers to provide specialized training for employees. Delaware Tech is the number one provider of training for technicians at area hospitals.

The County is experiencing steady diversified growth in other industries. Significant other businesses located in the county include the Invista Nylon Plant in Seaford, Vlasic Foods, Inc. (a pickle processing plant) in Millsboro, and DeCrane Aircraft, Inc. (an airplane fuel tank and airplane services facility) in Georgetown. There has been significant growth at the County Industrial Park in Georgetown with the addition of the DeCrane Aircraft, Inc. facility, which services Boeing aircraft and manufactures patented auxiliary fuel tanks for Boeing. Approximately 255 skilled employees work at this facility. DeCrane anticipates adding 50 more employees at another building that they will be leasing from the County. M & T Bank operates a call and consumer loan-processing center in Millsboro, employing approximately 445 employees. Other food processing companies include Sea Watch International (a seafood processing company) in Milford, Eastern Shore Poultry (a chicken processing plant) in Georgetown, and Burris Food, Inc. (a food distributor) in Milford. Other major employers include Barcroft Company (a pharmaceutical producer) in Lewes, Caulk Dentsply (a manufacturer of dental products) in Milford, Intervet (a poultry vaccine producer) in Millsboro, and Universal Forest Products (a manufacturer of roof trusses) in Georgetown.

A more recent fast-growing industry in Sussex County is retail outlets. Along a two-mile stretch of Route 1, between Lewes Beach and Rehoboth Beach, there are approximately 140 outlet stores offering products, such as clothing, tools, shoes, books, stereo equipment, food, kitchen supplies, camping equipment, restaurants, and even hot peppers. These outlets have become a year-round attraction for out-of-state residents, especially for those who are attracted by reasonable prices and the lack of a Delaware sales tax. This Outlet Center is ranked the largest on the Delmarva Peninsula and the sixth largest in the nation.

Tourism is an important industry in Sussex County. An estimated 2.5 million people-visits to Sussex County occur each year, with an estimated economic impact of over \$636 million. Per a 2003 study, the most popular activities for visitors were beaches (33 percent), shopping (27 percent), and outdoor recreation (10 percent). Atlantic Ocean beaches include Dewey, Fenwick Island, South Bethany, Bethany, Rehoboth, and the Cape Henlopen State Park. Delaware Bay beaches include Lewes, Broadkill Beach, and Slaughter Beach. The Delaware Seashore State Park is a popular attraction between Dewey Beach and Bethany Beach, offering swimming, surfing, clamming, fishing and boating as options. This section of beach is a narrow section of land, with the Atlantic Ocean on the east side and the Rehoboth and Indian River Bays on the west side. The Cape Henlopen State Park, between Lewes and Rehoboth, offers ocean and Delaware Bay beaches for swimming and fishing. There are also numerous hiking trails at the park. Sussex County is conveniently located to take advantage of a recent trend to vacation closer to home. The top five states of visitor origin are Maryland, Pennsylvania, Delaware, Virginia, and New Jersey.

Sussex County's population grew 38 percent between the 1990 and 2000 U. S. census. This rate of growth is the highest in the State of Delaware and is expected to continue at a similar pace during the next 10 years. As noted, the attractiveness of Sussex County as a place to live, has provided the impetus for a residential home building boom that has increased demands on the County to provide for growing needs for public safety, including paramedics and additional police, as well as sewer infrastructure.

The economic outlook for Sussex County is promising. The population is expected to increase at about 2% per year for the next 5 years. New public schools are under construction. Beebe Hospital has completed a new outpatient facility near Lewes. Construction continues at a record pace with the estimated value of new construction of \$728 million, up 13.5 percent for fiscal year 2005 versus 2004.

Financial Planning

Sussex County has strengthened its financial condition, especially during the past several years. A County goal is to maintain a sufficient undesignated fund balance amount each fiscal year. As of June 30, 2005, the General Fund's undesignated fund balance of \$14 million was 25 percent of the fiscal year 2006 budget. This is net of reserves and designations for additional pension funding, landfill costs, sewer grants, airport projects, open space preservation, and sewer planning studies.

The County is attempting to fund its non-sewer and water assets on a pay-as-you-go basis and avoid issuing debt for the same. As of June 30, 2005, the County had designated \$7.4 million toward the cost of a new Emergency Operations Center. \$2 million has been designated for a new County office building in response to the growth in the County. \$1.8 million has been set aside for landfill post-closure anticipated costs. By designating these funds, the future construction of these projects will be from available resources.

The County is also partially designating funds for a County Airport runway expansion and clear zone projects. Additional funds are set aside for an instrument landing system and fire protection system. The County plans to fund these projects with Federal Aviation Administration (FAA) grants, State grants, and County contributions.

Major sewer project expansions are planned for the next few years. The Cedar Neck Sewer Project, serving approximately 1,332 customers, was completed during fiscal year 2005. Cedar Neck Sewer costs total over \$11 million. Construction of the Oak Orchard Sanitary Sewer District Project should be complete by spring 2006. An additional 900 customers will be served by this new district located on the Indian River Bay. The Bayview Estates and Sea Country Estates Sewer Projects are also in their construction phases and completion is expected during January 2006. These are in environmentally sensitive areas and will serve an additional 223 customers. Other projects in the design phase include the Miller Creek, South Ocean View, and Millville sewer projects. An expansion to increase the capacity of the South Coastal Regional Wastewater Treatment Facility by one-third has begun. This project will cost over \$20 million. The fiscal year 2005 Five-Year Capital Improvement Plan includes \$142 million for sewer expansion and some upgrades. Funding for these projects includes State Revolving Fund loans, State grants, Federal USDA loans and grants, and County contributions.

Cash Management Policies and Practices

Except for the fiduciary funds and West Rehoboth Sewer fund, the County invests available funds on a short-term basis with local Sussex County banks. The County solicits bids weekly for collateralized certificates of deposit with Sussex County banks. Collateralized money market accounts are also utilized to maximize interest earnings. The West Rehoboth Sewer fund invests in U. S. Treasury obligations and some repurchase agreements.

Some investments from different County funds are pooled in bank accounts. Careful accounting records are maintained to track these investments. There are no pooled investments with statewide funds, except in the Pension Trust fund and the Post-retirement Employee Benefit fund.

The County conservatively requires collateralization with U. S. Treasury and accepted Agency Obligations. Our policy is to invest with local Sussex County banks that can provide this collateral held by third-party banks. Please see Note B, on pages 39 through 41, for additional information regarding cash and collateralization.

The Sussex County Pension Trust fund is diversified with three different managers, Fidelity Investments, the State of Delaware Local Government Pension Investment Pool, and the Wilmington Trust Company. The Sussex County Pension Committee oversees the management of the Pension Trust fund and the Post-retirement Employee Benefit fund and is responsible for recommendations to the County Council regarding investments. The Pension Committee's policy set a goal of 60 percent investments in equity and 40 percent in bond investments. Since calendar year 1994, Pension Trust fund returns have averaged almost 8 percent per year.

Risk Management

During fiscal year 2005, the County expensed \$1,137,952 for insurance covering liability, auto, workers compensation, property, public officials errors and omissions, flood insurance, and employee bonding. Insurance matters are reviewed with an independent insurance consultant. Every three years, the County solicits bids on the insurance policies to obtain the

best pricing available. Please see the Schedule of Insurance, on pages 152 and 153, for detail regarding individual policies. During fiscal year 2003, the County began self-insuring one major asset, an ocean outfall valued at about \$21,000,000. Since its construction in 1978, there have been no insurance claims regarding this outfall. The County was able to insure the outfall again effective September 1, 2005. During fiscal year 2005, the County did not experience any major losses due to accidents or acts of nature.

Regarding the employee health plan, the County maintains a self-insured plan, whereby the County funds expenses per insured up to \$150,000 per year. Expenses over the \$150,000 threshold are covered under a reinsurance policy, subject to a maximum aggregate limit of \$7,869,308. The County deposits monies in the health fund each month to cover the health plan cost. The County has successfully maintained this self-insured plan for over 10 years. Please refer to Note L, on pages 52 and 53, for additional information.

Pension and Other Post-Employment Benefits

The County provides a defined benefit pension plan for its employees. Employees are vested with a minimum of 8 years of service. Surviving spouses are eligible for 50 percent of the covered employee's pension benefit. The Pension Trust fund is treated as a fiduciary fund in the financial section.

The County is proud that it has made substantial contributions to the Pension Trust fund over the last few years. The value of the fund has increased from \$4 million in 1993 to \$28.9 million as of June 30, 2005. Our goal has been to fully fund the pension plan. As of January 1, 2005, the most recent actuarial study shows a deficit of \$2 million on an actuarial funding basis. This result is, primarily, due to the stock market downturn during 2000 through 2002. The fiscal year 2006 budget includes a 14 percent pension contribution of \$2,714,000, plus an additional \$850,000 contribution. Our goal is to pay off the unfunded amount within several years.

During fiscal year 2005, the County contributed funds in addition to the required contribution. As noted in Note E on pages 43 through 45, since fiscal year 1993, the County has contributed over \$880,000 per year to the Pension Trust fund to bring the fund up to the recommended level. Contributions prior to fiscal year 1993 were insufficient to fully fund the plan.

The County, as part of the budgetary process, has limited pensioner cost-of-living increases to one-half of the County employee cost-of-living increase, with a maximum of two percent per year. Pensioner cost-of-living increases are recommended annually with the County budget.

The County provides post-employment healthcare benefits to pensioners based on their years of service and status when they leave County employment. In anticipation of proposed accounting rule changes and in an effort to fund future liabilities, during fiscal year 2003, the County established a post-employment benefit account with \$500,000. The County deposited an additional \$1 million to this account during fiscal year 2004, plus \$886,000 during fiscal year 2005. This fund was valued at \$2,767,502 as of June 30, 2005. The County plans to make annual contributions to fund the liability for pensioner healthcare benefits. During December 2005, the County deposited an additional \$1,551,000 to this account for post-employment benefits.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Sussex County for its comprehensive annual financial report for the fiscal year ended June 30, 2004. This was the third year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Production of this report is due to the tremendous efforts of County employees in the Finance and Administration Department. We would especially like to thank those employees and the County auditors for their dedication to the completion of this report.

We would also like to thank the County Council for their support in maintaining the strong financial position of our County. Their direction has enabled the County to attain bond rating upgrades reflecting strong finances.

Respectfully submitted,

Robert L. Sticks

INDEPENDENT AUDITOR'S REPORT

To the President and Members of the County Council Sussex County, Delaware Georgetown, Delaware

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Sussex County, Delaware as of and for the year ended June 30, 2005, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Sussex County, Delaware's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Sussex County, Delaware as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2005, on our consideration of Sussex County, Delaware's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 3 through 17 and the required supplementary information on pages 55 and 56, are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Sussex County, Delaware's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of Sussex County, Delaware. The combining and individual fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Jefferson, Urian, Doane & Sterner, P.A.

Georgetown, Delaware November 28, 2005

SUSSEX COUNTY, DELAWARE

MANAGEMENT'S DISCUSSION & ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2005

This section of the report offers an overview and analysis of the financial activity of Sussex County, Delaware, for the year ended June 30, 2005. Please consider this Management's Discussion and Analysis (MD & A) along with other additional information included in the letter of transmittal and other sections of the report.

Financial Highlights

Government-wide Financial Statements

- As of June 30, 2005, assets exceeded liabilities by \$272,662,300. Of this amount, \$58.7 million was unrestricted and may be used for ongoing obligations to citizens and creditors.
- ➤ The County's total net assets increased by \$55,760,987 during the year. The governmental activities portion, \$21 million, is attributable, primarily, to an increase in construction-related user fees, and revenue from realty transfer taxes. The business-type activities increase in net assets of \$34.8 million is, primarily, due to growth-related capital cost contributions, connection fee income, State grant capital contributions, and County contributions.

Fund Financial Statements

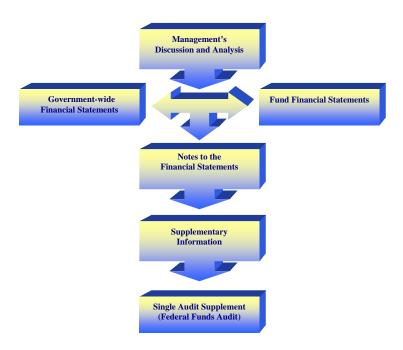

- As of June 30, 2005, the County's governmental funds reported an ending fund balance of \$88 million. This increased \$15.5 million from the preceding year. About 38 percent, or \$33.8 million, was unreserved or available for spending at the County's discretion.
- ➤ The undesignated fund balance as of June 30, 2005 for the governmental funds was \$14 million, or 20 percent of the fiscal year 2006 budget for these funds.

Debt Offering

> During fiscal year 2005, the County issued \$5 million in general obligation debt for two sewer funds. The respective sewer funds will be responsible for paying the debt service for these bonds.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the County's basic financial statements. Sussex County's basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. Supplementary information, in addition to the basic financial statements, is also included. The Single Audit (Federal Funds) Supplement follows the supplementary information.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private sector business. This government-wide financial reporting includes two statements: the Statement of Net Assets and the Statement of Activities. Fiduciary activities, including the County's pension trust fund and post-retirement employee benefit fund, are excluded from these statements because its resources are not available to finance other County programs.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as an indicator of whether the financial position of Sussex County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the current fiscal year. Changes in net assets are reported when the underlying event occurs, regardless of the timing of related cash flows. Thus, some revenues and expenses reported in this statement will not impact cash flows until future fiscal periods.

Both the Statement of Net Assets and Statement of Activities account separately for governmental activities and business-type activities.

- ➤ Governmental activities include General Government, Paramedics, Libraries, Planning and Zoning, Economic Development, Emergency Preparedness (911), and Constitutional Offices. These activities are mostly supported by user charges, taxes, and operating grants.
- > Business-type activities This includes Sussex County sewer and water districts, which are funded primarily by user charges, assessment charges, connection fees, and contributions.

The government-wide financial statements immediately follow this MD & A on pages 18 and 19 of this report.

Fund Financial Statements

The next group of financial statements, beginning on page 20 of this report, are fund financial statements. The fund financial statements reinforce and provide additional information.

A fund is an accounting entity that is used to maintain control over resources that have been segregated for specific activities or objectives. Sussex County, like other state and local governments, uses fund accounting to ensure compliance with finance-related legal requirements. Sussex County's funds are divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

➤ Governmental Funds - Governmental funds account for essentially the same functions as governmental activities in the government-wide financial statements. Governmental fund financial statements do focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This information may be useful in evaluating a government's near term financing requirements. Because the focus of governmental funds is for the current period, it is useful to compare this information with similar information presented for governmental activities in the government-wide financial statements. Readers may then better understand the long-term impact of the government's current financing decisions. The Governmental Fund Balance Sheet and Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance include reconciliations to the government-wide financial statements (see pages 20 and 22).

Sussex County maintains two individual governmental funds. These include the following: General and Capital Project funds. They are presented in separate columns on the governmental funds financial statements.

The basic financial statements include a budgetary comparison statement for the General fund. A budgetary comparison schedule has been included for the capital projects fund in the supplemental information. Sussex County adopts an annual appropriated budget for its General and Capital Project funds.

- Proprietary Funds Sussex County's proprietary funds are solely enterprise funds, which operate in a manner similar to private business enterprises. Sussex County's proprietary funds include four major funds for the Bethany, Long Neck, West Rehoboth, and the South Coastal Regional Wastewater Facility. They also include fifteen nonmajor sewer and water funds.
- Fiduciary Funds Sussex County has two fiduciary funds, the Pension Trust fund and the Post-retirement Employee Benefit fund. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. They are not reflected in the government-wide financial statements because the resources of these funds are not available to support the County's own programs. The separate accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 30 and 31 of this report.

Notes to the Financial Statements

Notes to the financial statements found on pages 32 through 54 of this report, provide additional information that is important for a better understanding of the data provided in the financial statements.

Other Information

Pages 55 and 56 include required supplementary information regarding pension funding progress. Following those schedules are General fund and Capital Project fund budgetary comparison schedules, General fund revenue and expenditure schedules, combining proprietary fund schedules, capital asset schedules, and other information. These follow on pages 57 through 83. The statistical section follows on pages 84 through 153 with additional County information. The Single Audit, a separate federal awards audit, follows the statistical section.

Government-wide Financial Analysis

As previously noted, assets exceed liabilities by \$272.7 million as of June 30, 2005. Net assets may serve over time as a useful indicator of a government's financial position.

The following Table is a summary of the government-wide statement of net assets:

SUSSEX COUNTY'S SCHEDULE OF NET ASSETS As of June 30, 2005 and 2004

		Governmental Activities Business-type Activit		Activities	Total Government						
		2005		2004	2005		2004		2005		2004
Current and Other Assets	\$	119,321,983	\$	98,952,085	\$ 56,844,784	\$	38,509,684	\$	176,166,767	\$	137,461,769

Net Assets: Invested in Capital Assets,											
Net of Related Debt		27,029,978		21,778,122	93,526,220		79,179,482		120,556,198		100,957,604
Restricted		47,805,783		26,751,718	45,585,060		35,967,259		93,390,843		62.718.977
Unrestricted		39,791,889		45,108,733	18,923,370		8,115,999		58,715,259		53,224,732
Total Net Assets	\$	114,627,650	\$	93,638,573	\$ 158,034,650	\$	123,262,740	\$	272,662,300	\$	216,901,313

A large portion of the County's net assets (44 percent) are not available for future spending since they represent amounts invested in capital assets (e.g., land, buildings, machinery and equipment). This investment is net of any related debt that was used to acquire those assets that is still outstanding. It should be noted that the resources needed to repay outstanding debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. This portion of net assets increased by \$19.6 million during fiscal year 2005, primarily due to developer contributions of sewer infrastructure and County sewer project expansion.

Of the remaining \$152.1 million in net assets, \$45.6 million is restricted for the repayment of interest and principal on bonds issued to finance water and sewer district costs or for capital costs incurred. For governmental activities, \$47.8 million represents realty transfer taxes, 911 fees received, and grant funds on-hand, which are restricted for specific purposes. Realty transfer taxes must be used for public safety,

economic development, public works, capital projects, infrastructure projects, or debt reduction. Restricted realty transfer taxes increased \$20.4 million due to the 33 percent transfer tax revenue increase during the year. Realty transfer taxes restricted funds include reservations for sewer district contributions (\$7 million), library expansion projects (\$1.4 million), a new Emergency Operations Center (\$8.6 million), Industrial Park infrastructure (\$3.85 million), landfill cleanup costs (\$2.6 million), and County Airport improvements (\$2.6 million). Available 911 fees are restricted for specific emergency dispatch purposes.

The remaining \$58.7 million in net assets is unrestricted and may be used for ongoing obligations to citizens and creditors. As of June 30, 2005, net assets were positive for both governmental activities and business-type activities.

The following schedule shows the breakdown of changes in net assets for governmental and business-type activities for fiscal years 2005 and 2004.

SUSSEX COUNTY'S CHANGES IN NET ASSETS For the Years Ended June 30, 2005 and 2004

Governmental Activities

Governmental activities increased net assets by \$20,989,077 during fiscal year 2005. This represents 38 percent of the increase in net assets for the year. Governmental activities include the General fund and Capital Project fund.

As per the preceding schedule, tax revenues total \$46.5 million for fiscal year 2005 for governmental activities. This includes \$36.3 million received from realty transfer taxes reflecting major growth in the number and value of real estate transactions in the County. Realty transfer taxes revenue was up 188 percent compared to three years ago, fiscal year 2002, while the realty transfer taxes rate remained the same.

The below pie chart shows realty transfer taxes as the largest governmental revenue comprising 51 percent of total revenue, followed by charges for services (20%), and property and capitation taxes (12%).

Revenues by Source - Governmental Activities

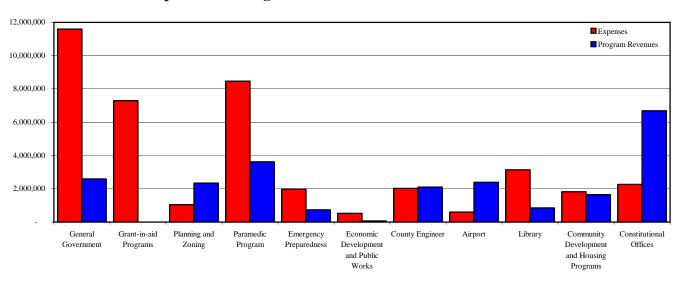

Charges for services reflect increases in revenue from the Private Road Inspection and Design fees, Building Permit, and Building Inspection fees. These revenues alone were up \$1.2 million, or 24 percent, from the previous year. They also reflect the strong housing and property sales market in Sussex County.

Property and capitation taxes decreased \$1.4 million due to a one time 25 percent general fund operations tax credit as approved by the County Council for fiscal year 2005.

Governmental activity expenses also increased, albeit, at a slower rate. Growth in these expenses reflects the need to provide services for an increasing population.

The following bar chart compares revenues and expenses for each governmental activity.

Expenses and Program Revenues - Governmental Activities

During fiscal year 2005, construction was begun on the new combination Paramedic/State Police facility in Bridgeville. The County contributed \$1.1 million during fiscal year 2004 for this new facility. The additional paramedic unit placed in service during fiscal year 2004 was brought to full-time status, and units were redeployed to increase coverage and reduce response times. An eighth paramedic unit was placed in service on a part-time basis, to be deployed during times and in areas when increased resources are needed in response to high demand. Due to the shortage of qualified paramedics, three positions were created for paramedic students. Those selected were enrolled in the Delaware Technical and Community College paramedic training program and, upon graduation in fiscal year 2006, will be obligated to fill vacant positions within the County paramedic department for a minimum of three years.

During fiscal year 2005, the County provided \$172,250 in grants for community improvements to local nonprofit organizations as part of a program to benefit County residents. These grants included local historical societies, and educational, recreation, arts, and agriculture programs. The County also granted \$250,000 towards a new Easter Seals Center to be constructed in Georgetown. The County expended \$199,432 for open space land preservation. These funds will protect approximately 440 acres of farmland from future development.

Sussex County's Grant-in-Aid Program for fiscal year 2005 reflected an increase in funding for police. The County partially funded 24 additional State Police to service our county. During the next two years, this will increase by four police officers per year, for a total of 32 State Police, which is in addition to the normal State allotment for our county.

County funding for the volunteer fire service increased by 45 percent during fiscal year 2005. \$3,795,016 was granted to the fire service including \$817,477 for salary costs for Basic Life Support providers.

During fiscal year 2005, the County continued expansion projects at the County Airport. Four new T-hangars were completed. A new airport perimeter security fence was constructed. The County continued negotiating and purchasing property needed to extend an airport runway, which will enable

businesses and employers at the airport to grow. An airport taxi lane project was undertaken that will provide space for more needed airport hangars.

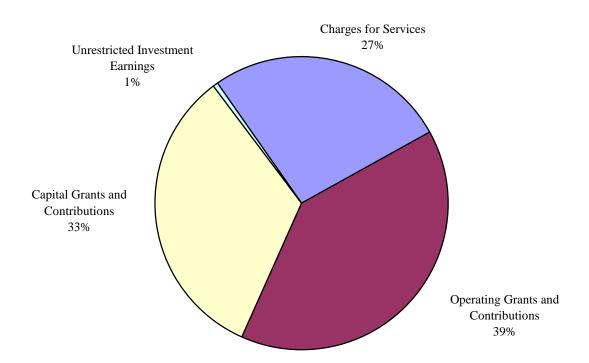

Design continued for a new Emergency Operations Center to provide additional space for the County's 911 Call Center. A building at the County's Industrial Park was purchased and, subsequently, leased to PATS, LLC. This will improve employment opportunities in Sussex County.

County contributions to the sewer and water districts, totaling \$9,530,548, were made during fiscal year 2005. These funds help offset capital costs incurred and are a major factor in maintaining sewer user rates at reasonable levels. This funding included \$157,483 for a new program to fund front foot assessment bills exceeding 125 front feet for residential customers.

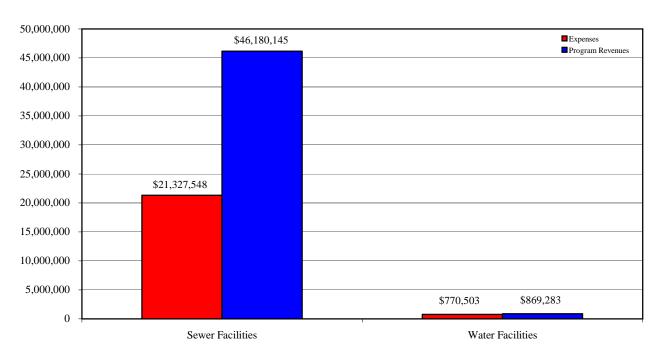

Business-type Activities

Sussex County's water and sewer funds recorded an increase in net assets of \$34,771,910 during fiscal year 2005. Income before capital contributions and transfers was \$9,655,086. The pie chart reflects the large amounts received from grants and contributions for capital costs.

Revenues by Source - Business-type Activities

The following bar chart shows that program revenues exceeded expenses for both sewer and water facilities.

Expenses and Program Revenues - Business-type Activities

- ➤ Capital contributions from developers totaled \$12,482,995 during the year. This includes sewer facilities for new development as required by the County, which are deeded to the County upon project completion. This amount increased 65 percent from \$7,562,965 during fiscal year 2004.
- ➤ The County also received \$8,831,043 in connection fees for new growth in the sewer and water districts. This was a 21 percent increase due to an increase in number of customers and an increase in connection fee rates. County sewer and water districts' EDUs grew by 6.8 percent, from 47,788 at the beginning of the year to 51,054 as of June 30, 2005. This reflects continued growth, after a 6.3 percent increase during fiscal year 2004.
- ➤ The Cedar Neck Sewer Project completed its first full year of operation. Final construction completion occurred during fiscal year 2005.

Financial Analysis of the County's Funds

As previously noted, Sussex County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

Governmental fund accounting provides information on available or spendable resources. This information is useful in assessing the County's financing requirements for operations. Unreserved fund balance may serve as a useful measure of the County's net resources available for spending and for future needs.

During fiscal year 2005, fund balances of the County's governmental funds increased \$15,544,179 to \$88,311,149. As noted previously, this is particularly due to strong residential housing demand in the County. The County's realty transfer taxes revenue increased by \$8,930,271, or 33 percent. Related building fee revenues were also up 24 percent, or \$1.2 million from the previous year.

Undesignated fund balance for the General fund rose to \$13,957,648. This is net of designations for open space purchases (\$4,795,377), pension and pension benefit fund contributions (\$3,350,000), community grants (\$985,707), reassessment (\$530,000), low-income housing rehab projects (\$205,325), and the Town Economic Stimulus Loan Program (\$1,172,061). Our goal is to maintain an undesignated portion of fund balance of approximately 25 percent of the succeeding year's General fund budget. As of June 30, 2005, the General fund undesignated fund balance of \$13,957,648 is 25 percent of the fiscal year 2006 budget.

The governmental funds include the General fund and Capital Project fund. General fund includes County Administration, Finance, Personnel, Buildings and Grounds, Planning & Zoning, Emergency Preparedness (911), Paramedics, Economic Development and Industrial Park, Engineering Administration and Public Works, Solid Waste, County Airport, Libraries, and Constitutional Offices, including Recorder of Deeds, Register of Wills, Sheriff, and Clerk of Peace. The Capital Project fund includes funding for non-proprietary funds (non-sewer and non-water projects), such as the County Airport, Emergency Operations Center, Industrial Park, County Libraries, and County Administrative Buildings.

During fiscal year 2001, the County defeased all tax supported bonded debt. Since the County has not incurred any tax supported bonded debt since then, the County did not have a debt service fund during fiscal year 2005.

During fiscal year 2005, the County established an irrevocable fund for post-retirement employee benefits. The County is anticipating an accounting rules change that will require changing the measurement of this liability in our financial report in the near future. Monies in this account have been invested with the State of Delaware Local Government Retirement Investment Pool. As of June 30, 2005, net assets held in this account were valued at \$2,767,502. The County anticipates major additional contributions to this fund in the future to fund pensioner benefits.

During fiscal year 2004, the Sussex County Council adopted a revised Land Use Plan. The Council is now in the process of enacting ordinances, which reflect the new plan.

Proprietary Funds

The County's proprietary funds provide the same type of information as in the government-wide financial statements for business-type activities. Net assets, exclusive of amounts invested in capital costs, total \$64,508,430. Of this amount, \$18,923,370 is unrestricted. Restricted net assets include amounts for West Rehoboth Sewer revenue bond debt service, as well as amounts set aside for construction costs and connection fee revenue received. Connection fees received are restricted to be used for capital costs and debt service cost.

Please refer to the government-wide financial statement information, regarding business-type activities, for additional discussion regarding proprietary funds.

GENERAL FUND BUDGETARY HIGHLIGHTS

Revenue and Appropriation Budgets

Total budgeted revenues, expenditures, and other financing uses are equal to the original approved budget for fiscal year 2005. During the year, the County Administrator approved some budget amendments for expenditures from department heads. The approved budget amendments include increases in certain line items for requested expenditures, which were offset by decreases in other departmental line items and/or the budget for contingencies. This resulted in individual line item budget changes, but no change in the total General fund expenditure budget. Some of the largest transfers from budgeted contingencies to individual line items, as approved by the County Administrator during the year, were for Sussex Conservation District Tax Ditch Drainage Grant (\$100,000), Library costs funded by State grant overage (\$33,591), and Assessment Department vehicle replacements (\$29,981).

Budget to Actual - Revenue

General fund revenues, and other financing sources, exceeded the budget by \$14,877,710. As previously noted, this is primarily due to the strong property market and strong building climate in Sussex County. Realty transfer taxes revenue exceeded the budget by \$20,329,843. Recorder of Deeds revenue exceeded the budget by \$421,420. Building related fees, from building permits and zoning fees, building inspection fees, and private road fees, also exceeded the budget by \$2,515,252. The Library donation positive variance of \$394,268 is attributable to a one-time construction contribution from the Friends of the Milton Library for the Milton Library expansion project.

Budget to Actual - Expenditures

Expenditures and other financing uses exceeded the budget by \$3,074,002 as noted on page 66. This is partially a result of additional transfers to the Capital Projects fund for \$1,980,000. This additional \$1.98 million transferred to the Capital Projects fund will be used for capital costs such as a new County Emergency Operations Center, Airport expansion, and a new County office building. By transferring funds to the Capital Projects fund, the County will be better able to meet its non-sewer and water needs, without issuing debt. Without tax supported debt, the County will be saving interest expense costs in the future.

Expenditures for most departments were within budget amounts. Under grants, the Fire Enhancement Fee payments to fire companies exceeded the budget by \$997,847 due to a corresponding increase in revenue. The County's Building Code inspection cost, performed by an outside contractor, exceeded budget estimates by \$128,037 due to the major increase in building activity as reflected in the corresponding increase in revenue. Engineer Administration other expenditures exceeded budget by \$66,987, primarily due to additional costs incurred for a sewer planning area study, which will serve as a guide for future County sewer expansion. Airport personal services and employee benefits exceeded budget by \$92,421 due to additional County staff time expended on Airport expansion projects. Register of Wills exceeded its budget due to an additional staff person hired to assist with growing workloads.

Capital Asset and Debt Administration

Capital Assets

As per the below chart, capital assets (net of depreciation) are valued at \$283,195,332 as of June 30, 2005. Note D, on pages 41 and 42, includes additional information.

SUSSEX COUNTY'S CAPITAL ASSETS

The governmental activity assets reflect the completion of a major expansion of the Milton Library Building for approximately \$1.7 million. A \$300,000 County Airport T-Hangar Expansion Project was also completed during fiscal year 2005. The County also purchased a large building at the Sussex County Industrial Park for \$1.5 million. This building was subsequently leased to PATS Aircraft, LLC. This purchase will help provide additional employment by PATS Aircraft, LLC as their business expands. At the County Airport, an Airport Lights Project was completed and engineering work continued related to the coming expansion and renovation of airport runways. Three parcels of land were purchased for \$800,000, which are needed for runway expansion. A property in Georgetown, which will be used for County Office parking spaces, was also purchased for \$101,000. \$305,000 was spent for the purchase of land near a former County landfill to help alleviate possible environmental concerns.

Sewer fund asset additions also include \$12,483,000 worth of sewer infrastructure that was paid for by developers and donated to the County for new developments within County sewer districts. This includes collection lines, pumping equipment, and force mains.

The following are highlights of the major capital sewer projects underway during fiscal year 2005, which will expand the County's sewer system to serve more residents and better protect the environment.

- Customers continued connecting to the Cedar Neck Sewer Project, west of Bethany Beach. This new project was completed during April 2004. Over 1,300 hookups had occurred by June 30, 2005.
- \$4.8 million was expended during fiscal year 2005 for the new Oak Orchard Sanitary Sewer District which will serve approximately 890 County residents. Completion and hookups for this project are expected during fiscal year 2006.

- Construction continued on the new \$3.5 million Bayview Estates Sewer District which will be completed during fiscal year 2006 and will serve approximately 174 properties.
- The \$650,000 Sea Country Estates Sewer District was also in the construction phase. This new
 district will serve approximately 49 new hookups and is expected to be complete during fiscal
 year 2006.
- At the South Coastal Regional Wastewater Treatment Facility, which now serves 20,000 residents, a major expansion project began. A \$15.2 million construction project began which will expand the capacity of the plant from 6 million gallons per day to 9 million gallons per day of average daily flow. This project will also upgrade the plant, which was constructed in 1976 and upgraded in 1988.
- During fiscal year 2005, a \$3.6 million sludge-handling project at the South Coastal Regional Wastewater Treatment Facility was completed. This project improved the sludge product to a class A material which can now be used to fertilize lawns, renovate fields, and as a liming material for crops. With the additional volume generated by growth of this system, this provides a beneficial method for sludge disposal.
- Engineering planning and design work was underway during the year for the Millville, South Ocean View, and Miller Creek Sewer projects. Construction is expected to begin during fiscal year 2007 for the Millville project.

Long-term Debt

As of June 30, 2005, the County had \$149,239,594 in outstanding bonds payable. Of this amount, \$28,076,986 was backed by specific sewer district revenues. The remaining \$121,162,608 of debt is backed by the full faith and credit of the Sussex County Government. This debt was solely used to fund business-type water and sewer activities.

SUSSEX COUNTY'S OUTSTANDING DEBT

During fiscal year 2003, Standard & Poor's raised its rating for Sussex County by two rating classifications. On December 5, 2002, Standard & Poor's upgraded the County's rating to AA from A+, "reflecting strong residential tax base growth and increasingly strong fund balances". Previously, on February 11, 2000, Moody's Investors Service had raised its rating for Sussex County from A1 to Aa3. Per Standard & Poor's, "the upgrade also reflects a modest, but diverse, local economy". They also noted, "consistently strong financial performance and management continuity; and low debt levels due to self-supporting utilities and a very manageable capital improvement plan".

During fiscal year 2005, Bond Issue 1993 was repaid in full, with a final debt service made on April 15, 2005. Also during the year, \$5.2 million was borrowed from the State of Delaware Revolving Fund Loan Program as part of a \$13 million loan for the South Coastal Regional Wastewater Facility Improvement Project. This is a 20-year loan at 3.175 percent. \$103,000 was borrowed December 2, 2004 as part of a \$1.5 million State of Delaware Revolving Fund Loan for the Oak Orchard Sanitary Sewer District, which is a 20-year loan at 2 percent interest.

State of Delaware statutes limit the amount of general obligation debt that Sussex County can issue to 12 percent of its total assessed valuation. As of June 30, 2005, there was \$161,887,411 remaining as available general obligation debt margin (see page 94).

Additional information is included in note "H" on pages 46 through 50 of the report.

Economic Factors in Next Year's Budgets and Rates

Economic Factors

- ➤ The County's economy is strong as evidenced by a 3.2 percent unemployment rate as of June 2005. This compares to 4.1 percent for the State of Delaware and 5.0 percent for the United States. Five banks are planning to open new branches in Sussex County during fiscal year 2006.
- The real estate and construction industries are strong. Per the U. S. Census Bureau for calendar year 2005, the value of new construction exceeded the total for the rest of the State as of November 30, 2005. Approximately 54.3 percent of new construction value is occurring in Sussex County per the U. S. Census Bureau. Per the U.S. Census Bureau, the value of new construction in Sussex County exceeds that for the individual states of Rhode Island, South Dakota, and Alaska, as well as the District of Columbia.
- Agriculture is a major industry in Sussex County. Sussex County ranks first among all United States counties in poultry and egg sales per the U. S. Department of Agriculture. Four major poultry companies have facilities, or growers, in Sussex County. Corn, soybeans, and other vegetables are also grown in the County. Per the U. S. Department of Agriculture's 2002 Census, Sussex County ranked 36th in the United States for total market value of agriculture products sold, 263rd for value of crops, and 29th for number of vegetable acres harvested, as well as first for the sales value of poultry and eggs. Over 3,000 counties were included in this survey.
- ➤ Retail sales is a growing industry in Sussex County with major outlet shopping located on the East Coast corridor. These outlets attract customers from other counties and states. Per a 1997 study by the U. S. Census Bureau, retail sales per capita in Sussex County exceeds that for New Castle and Kent County, Delaware.

Fiscal Year 2006 Budget and Rates

The fiscal year 2006 General fund budget increased by 7 percent, reflecting County population and infrastructure growth. Funding increased for services such as paramedics, police and local law enforcement, volunteer fire companies, 911 and emergency response, public works, and building code. Volunteer fire service funding for \$3.2 million increased 12 percent. Over \$1 million of this funding is for paid ambulance basic life support providers. Paramedic Department funding increased 16 percent including additional staff needed to serve our growing population, which includes many retirees. The

number of paramedic calls increased by 21 percent over the last 3 years. The County also continues to fund \$1.4 million for the open space land program to preserve land from development.

The County property tax rate remained at 44.5 cents for the 16th straight year. Other projected general fund revenues increased, such as the realty transfer taxes and revenues related to building construction. The County did not renew the one time 25 percent general fund property tax credit from fiscal year 2005.

The fiscal year 2006 Sewer and Water budget for operations, maintenance and debt payments increased by 12.48 percent. Population increases, as well as County sewer expansion projects, have resulted in more users and increasing total cost. The fiscal year 2006 revenue budget includes a 5 percent service charge rate increase for most districts. The budget did include expanding the residential front foot assessment cap program to provide a subsidy to current residential property owners with more than 100 billable front feet. The fiscal year 2005 cap was 125 billable front feet.

The new budget does include increases in sewer system connection charges. These charges are designed to recover costs needed for new expansion from new users. They are one-time charges for new sewer customers.

The capital budget program of \$54.1 million includes \$29.7 million for water and sewer district expansion and major maintenance projects. \$11.2 million is projected to be spent for expansion and upgrading the South Coastal Regional Wastewater Facility treatment facility. \$5 million is estimated to complete the new Oak Orchard Sewer District. Other sewer projects include the completion of the new Bayview Estates and Sea Country Estates sewer districts, rebuilding pump stations, expansion of the Holts Landing Sewer District, equipment replacements, and planning and engineering studies for future sewer expansion projects. The five-year capital improvement plan of \$194.2 million includes \$142.6 million for sewer and water projects and \$51.6 million for other projects such as airport expansion, emergency operations center building, County office building, and Industrial Park fire protection.

Requests for Information

This Financial Report is designed to provide an overview of Sussex County's finances and provide a meaningful picture of our County. This report is available on the County's website at www.sussexcountyde.gov. Any questions concerning this report, or requests for additional information, should be addressed to:

FOR THE YEAR ENDED JUNE 30, 2005

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS		\$ 15,544,179
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$ 6,792,559) exceeded depreciation (\$ 1,548,218) in the current period.		5,244,341
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, as follows:		
Property taxes	\$ (8,085)	
Grants	275,736	267,651
Capitalized lease proceeds are recognized as financing sources in governmental funds, but are not revenue in the government-wide statement of activities, net of principal payments on capitalized leases.		7,516
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. The net change is as follows:		
Compensated absences	(1,648,656)	
Net pension obligation	1,368,046	
Postclosure landfill care costs	206,000	(74,610)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Sussex County, Delaware (the County) was founded in 1683. Local government is provided by a five member elected County Council. The County principally provides general administrative services; emergency preparedness services; airport services; paramedics; Constitutional Row Offices; zoning; libraries; housing and economic development programs; and sewer and water services.

The County's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. Although the County has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the County has chosen not to do so. The more significant accounting policies established in GAAP and used by the County are discussed below.

1. Reporting Entity

The accompanying financial statements include various agencies, departments, and offices that are legally controlled by or dependent on the County Council (the primary government). As defined by GASBS No. 14, the County's financial reporting entity is required to consist of all organizations for which the County is financially accountable or for which there is a significant relationship. The County has no component units in its reporting entity. The following do not meet the established criteria for inclusion in the reporting entity and, therefore, are excluded from this report: the towns, school districts and independent libraries within Sussex County.

2. Basic Financial Statements - Government-wide Statements

The County's basic financial statements include both government-wide (reporting the County as a whole) and fund financial statements (reporting the County's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The County's governmental activities consist of: general government; grant-in-aid programs; planning and zoning; paramedic program; emergency preparedness; economic development and public works; county engineer; airport; library; community development and housing programs; and constitutional offices. The County's water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The County utilizes restricted resources to finance qualifying activities, to the extent permitted by laws, regulations, contracts and grants.

2. Basic Financial Statements - Government-wide Statements - Continued

The government-wide Statement of Activities reports both the gross and net cost of each of the County's functions and business-type activities. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. Direct expenses are those that are clearly identifiable with a specific function.

The net costs (by function or business-type activity) are normally covered by general revenue (property taxes, intergovernmental revenues, interest income, etc.).

The County does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, engineering, data processing, etc.).

This government-wide focus is more on the sustainability of the County as an entity and the change in the County's net assets resulting from the current year's activities.

3. Basic Financial Statements - Fund Financial Statements

The financial transactions of the County are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the County:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the County:

General fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital projects fund is maintained to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). Capital projects expenditures in fiscal year 2005 were mainly for airport, industrial park and library projects. As of June 30, 2005, the major projects being planned include a new \$ 8 million Emergency Operations Center, \$ 3.6 million for a building at the County Industrial Park, \$ 17 million for airport runway extensions and renovations, \$ 3.2 million for County Industrial Park fire protection, \$ 4 million for County office expansion, and \$ 4 million for County library expansion projects.

3. Basic Financial Statements - Fund Financial Statements - Continued

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Proprietary funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The following is a description of the proprietary funds of the County:

Enterprise funds are used to account for the provision of water and sewer services to customers in the County's Water and Sewer Districts. For presentation purposes, the major funds of Bethany Sewer Fund, Long Neck Sewer Fund, Treatment Plant - SCRWF and West Rehoboth Sewer Fund have been presented as separate funds. However, West Rehoboth is actually an extension of the Dewey Sewer District. Activities of the enterprise funds include administration, operations and maintenance of the water and sewer system, and billing and collection activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for providing services. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting the above criteria are reported as non-operating revenues and expenses.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support County programs. The reporting focus is on net assets and changes in net assets, reported using accounting principles similar to proprietary funds. The Pension Trust Fund is used to account for the assets of the Sussex County Employee Pension Plan, which is part of the County's legal entity. It is a single employer defined benefit pension plan that provides benefits to eligible County employees. A standalone report is not issued for the Plan. The Post-retirement Employee Benefit Fund is used to account for the assets of the Sussex County Post-retirement Employee Benefit Plan, which is part of the County's legal entity.

The County's fiduciary fund is presented in the fiduciary fund financial statements by type (pension and post-retirement employee benefit). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

3. Basic Financial Statements - Fund Financial Statements - Continued

Major and Nonmajor Funds

The funds of the financial reporting entity are further classified as major or nonmajor. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASBS No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The County electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements.

4. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual

Both governmental and business-type activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

5. Cash and Cash Equivalents

The County has defined cash and cash equivalents to include cash on hand, demand deposits and all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased.

Restricted cash mainly consists of amounts held by the County for the proceeds from grant programs, property sales, Constitutional Row Offices, 911 emergency reporting, mobile home placement fee, realty transfer tax, fire service fee and various sewer system reserves and construction funds.

6. <u>Investments</u>

The enterprise fund investments that have a remaining maturity at time of purchase of one year or less are reported at amortized cost. All other investments are stated at fair value. Fair values are determined by quoted market prices, where available. Restricted investments represent amounts held by the County for sewer fund construction and debt service, and for revenue bond required reserves. Information is not available concerning the indirect use of derivatives through the mutual funds and investment pools.

7. Accounts Receivable

Accounts receivable are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

8. Inventory

Inventories are valued at cost using first-in, first-out (FIFO) or market and represent supplies owned by the County. The costs of these inventories are recorded as expenditures when consumed.

9. Capital Assets

Capital assets purchased or acquired with an original cost of \$ 3,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	10 - 50 years
Improvements	5 - 50 years
Equipment	5 - 20 years
Infrastructure	10 - 50 years

The County's governmental activities infrastructure consists mainly of parking lots, airport aprons and airport runways.

10. Bond Premiums, Discounts and Issuance Costs

Bond premiums, discounts and issuance costs for proprietary funds are deferred and amortized over the term of the bonds, which range from one to forty years, using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

11. Deposits and Deferred Revenue

Deposits represent monies held by the County to be remitted to others. Deferred revenue represents monies held by the County to be recognized as revenue in future periods.

12. Interest Capitalization

Interest costs incurred by a proprietary fund for the acquisition and/or construction of capital assets are subject to capitalization. The interest capitalization period begins when the following conditions are present:

- a. Expenditures for the capital asset have been made.
- b. Activities that are necessary to get the capital asset ready for its intended use are in progress.
- c. Interest cost is being incurred.

The amount of interest cost to be capitalized is based on the weighted-average amount of accumulated expenditures for the period multiplied by the proprietary fund's interest rate for the obligation incurred specifically to finance the construction of the capital asset. During fiscal 2005, Proprietary Fund interest expense is net of \$ 224,048 of capitalized interest.

13. Equity Classifications

Government-wide Statements

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved. Reserved is further split between encumbrances, inventories and prepaid expenses, non-current assets and amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Unrestricted is further split between designated and undesignated. Designations of fund balance represent tentative management plans that are subject to change. Proprietary fund equity is classified the same as in the government-wide statements.

14. Revenues

Those revenues susceptible to accrual are property taxes, special assessments, interest revenue and charges for services, intergovernmental, and miscellaneous. All other revenue items are considered to be measurable and available only when cash is received by the County. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non-operating revenue based on GASBS No. 33. In applying GASBS No. 33 to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient.

14. Revenues - Continued

Program revenues include: charges to customers for goods, services or privileges provided, operating grants and contributions, and capital grants and contributions. General revenues include all taxes.

The County's property tax year runs from May 1 to April 30. Property taxes are recorded and attached as an enforceable lien on property on May 1, the date levied. Taxes are payable under the following terms: July 1 through September 30, face amount; after September 30, a 1.5% penalty per month is charged on the unpaid balance due. Property taxes are recognized as revenue in the budget year (beginning July 1 after the levy date) for which they are levied. The County Council enacted a 25% property tax credit program to eligible taxpayers for fiscal year 2005. Accordingly, property taxes in the accompanying financial statements are shown net of the \$ 1,922,507 credit applied.

15. Expenditures

Expenditures are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

16. Compensated Absences

Employees are granted vacation and sick leave in varying amounts. In the event of termination or retirement, an employee is reimbursed for accumulated vacation days up to two times their yearly vacation and, for sick days, up to a maximum of 90 days. The proprietary funds of the County accrue accumulated unpaid vacation and sick leave when earned (or estimated to be earned) by the employee. Compensated absences for governmental funds are a reconciling item between the fund and government-wide presentations.

17. Interfund Activity

Interfund activity is reported as either loans, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

18. Budgets and Budgetary Accounting

Prior to March 1, the County Administrator, in conjunction with the Director of Finance and the Director of Accounting, distributes budget request forms to each department and agency. The budget must identify the specific level of service provision and describe how priorities have been established and incorporated into the budget.

These budgets are prepared by April 1. The County Administrator, with the assistance of the Director of Finance and Director of Accounting, then develop an annual operating budget, using these department budgets to evaluate the priority and costs of various services. The recommended annual operating budget is then presented to Council by the County Administrator. This submission includes proposed operating budget ordinances setting forth the proposed departmental appropriations and various tax rates to balance the budget.

18. Budgets and Budgetary Accounting - Continued

The Council reviews the budget both internally and through public hearings. Subsequently, the budget is adopted through legislation in Council prior to July 1. The operating budget ordinance and related revenue ordinances are officially adopted when approved by the County Council. The County legally adopts an annual budget for the general fund and the capital projects fund.

Appropriations are legislated at the departmental level by object of expenditure. Although the County Code requires budget amendments to be adopted using the same procedures as its original adoption, the Council has authorized the County Administrator to make budgetary transfers within each fund. The aggregate amount of the budget cannot be changed without a public hearing. All unused and unencumbered annual appropriations lapse at fiscal year-end.

The budgets for the County's general fund and capital projects fund have been prepared on a basis materially consistent with generally accepted accounting principles (GAAP). Final budgeted amounts are as amended through June 30, 2005. Unexpended appropriations in the operating budget lapse at year end, while encumbered amounts are reappropriated in the subsequent year.

19. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

NOTE B - CASH AND INVESTMENTS

All deposits are in various financial institutions and are carried at cost. Transactions are made directly with the banks; services of brokers or securities dealers are not used. At June 30, 2005, the carrying amount of the County's deposits was \$ 118,666,920 and the bank balance was \$ 120,697,634, of which \$ 2,064 was uninsured and uncollateralized.

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. In regards to investments, custodial credit risk is in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The County's investment policy requires collateralization by each financial institution with direct obligations of the U.S. government and requires the collateral to be maintained at a third party.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the County's investment. The County's primary objectives of its investment activities is the safety of principal in order to mitigate interest rate risk. The County's investment policy does not limit investment maturities as a means of managing it's exposure to fair value losses arising from increasing interest rates. Investments in U.S. government securities earn interest at a stated fixed rate and are normally held until maturity when the full principle and interest is paid to the County.

NOTE B - CASH AND INVESTMENTS - CONTINUED

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's investment policy stresses safety of principal as investments are made with judgment and care. U.S. government securities are not considered to have credit risk and, therefore, their credit risk is not disclosed. Investments issued by Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, and Federal National Mortgage Association have an AAA credit rating at year end. The County does not have any other investments that are credit quality rated.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The County has no formal policy to address the concentration of credit risk attributed to a single issuer. More than 5 percent of the County's investments are in the following issuers (other than those issued or guaranteed by the U.S. government, investments in mutual funds and external investment pools): Wilmington Trust repurchase agreements (18.1%).

The County's investment policy authorizes the following investments:

- 1. Bonds or other obligations of which the faith and credit of the United States of America are pledged;
- 2. Obligations of federal governmental agencies issued pursuant to Acts of Congress;
- 3. Repurchase agreements that are secured by any bond or other obligation for the payment of which the faith and credit of the United States are pledged;
- 4. Certificates of deposit and other evidences of deposit of financial institutions;
- 5. Money market mutual funds regulated by the Securities and Exchange Commission and whose portfolios consist of dollar-denominated securities; and
- 6. Local government investment pools administered by the State of Delaware.

The County had the following investments at June 30, 2005:

	Investment Maturities (in Years)						
Investment Type	 Fair Value	Less than 1		1 - 5	 6 - 10	N	Iore than 10

NOTE E - SUSSEX COUNTY EMPLOYEE PENSION PLAN

Plan Description and Provisions

The County established and administers a single-employer defined benefit pension plan for its employees. The Plan provides for retirement, disability and death benefits to plan members and their beneficiaries. Employees are not required to contribute to the plan. The pension plan is reported in the pension trust fiduciary fund in the County's financial statements. A covered employee is an employee who receives a regular salary or wages wholly, or in part, directly, or indirectly, from Sussex County provided, however, that an employee shall not be considered in covered employment if they are a part-time or seasonal employee who is not regularly employed for more than 120 working days in any one calendar year, per Ordinance No. 19, 6/10/75; No. 52, 12/16/80; No. 73, 9/22/81; No. 190, 7/24/84; No. 281, 7/23/85; No. 318, 11/12/85; No. 359, 3/25/86; No. 1375, 6/6/00 and No. 1485, 7/1/01. Also covered are elected officials, Justices of the Peace, and Constables for time worked prior to March 31, 1965. Cost-of-living adjustments (COLA) are provided at the discretion of the County Council. The County has authority to establish and amend benefit provisions of the plan.

To be eligible for retirement benefits, a covered employee who shall have service with Sussex County in continuous employment for at least eight years shall be considered eligible for retirement benefits within the meaning of this Ordinance, except as otherwise provided. The age for normal retirement is 62 with eight years of service, 60 for early retirement with 15 years of service, or after 30 years of service regardless of age, for most employees. Effective June 6, 2000, the number of years of service for normal retirement is 25 for paramedic and emergency communication specialists. For the year ended June 30, 2005, total payroll was \$ 17,195,414. Covered payroll refers to all compensation by the County to active employees covered by the plan. Current membership in the plan (as of January 1, 2005) is as follows:

	Nonvested			Terminated	Covered
Vested Actives	Actives	Total Actives	Retirees	Vested	Payroll
237	243	480	103	56	\$ 15,920,368

Annual Pension Cost and Net Pension Obligation

The County's annual pension cost and net pension obligation (asset) for the current year were as follows:

Annual required contribution	\$ 1,407,930
Interest on net pension obligation	(335,697)
Adjustment to annual required contribution	 522,154
Annual Pension Cost	1,594,387
Contributions made	 (3,304,444)
Increase in Net Pension Asset	(1,710,057)
Net Pension Obligation (Asset), Beginning of Year	 (4,196,218)
Net Pension Obligation (Asset), End of Year	\$ (5,906,275)

NOTE E - SUSSEX COUNTY EMPLOYEE PENSION PLAN - CONTINUED

The County's annual contribution to the pension trust is determined through the budgetary process and with reference to actuarial determined contributions. Contributions made were 21 percent of covered payroll. The contribution is designed to accumulate sufficient assets to pay benefits when due. The actuarial valuation of the plan as of January 1, 2005 was determined using the projected unit credit actuarial cost method. This measure is independent of the funding method used to determine contributions to the system. The actuarial assumptions include:

- A rate of return on the investment of present and future assets of 8 percent per year compounded annually.
- Projected salary increases of 5 percent per year compounded annually.
- The assumption that benefits will increase 2 percent annually after retirement for cost of living increases.
- Inflation of 4 percent per year underlying the salary scale and interest rates.
- Five-year phase-in of asset gains and losses is used to value assets.

The level dollar closed method is used to amortize the Annual Required Contribution and an adjustment to the Annual Required Contribution. The remaining amortization period is 11 years. Employer contributions are recognized in the period in which contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Administrative costs are financed through investment earnings.

Trend information is as follows:

Year Ended June 30,	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation (Asset)
2003	\$ 1,085,060	163.2 %	\$ (2,915,064)
2004	1,366,067	193.8	(4,196,218)
2005	1,594,387	207.2	(5,906,275)

The plan was funded with contributions as follows:

Fiscal Year	Amount	Fiscal Year	 Amount
1976	\$ 75,000	1994	\$ 950,736
1982	50,000	1995	1,040,285

NOTE E - SUSSEX COUNTY EMPLOYEE PENSION PLAN - CONTINUED

Pension Trust Assets

The pension trust funds are invested in U.S. Treasury Notes, U.S. Government Agency Notes and Bonds, Sussex County Second Lien Revenue Bonds, the Delaware Local Government Retirement Investment Pool (DELRIP), Wilmington Trust Company (WTC) mutual funds, and Fidelity Investments mutual funds. Wilmington Trust Company is the trustee of the Plan. DELRIP was established to allow local governments the option to pool their pension assets with the Delaware Public Employees' Retirement System (DPERS). DELRIP is in the custody of the Delaware Board of Pension Trustees and is subject to oversight of the DPERS' Investment Committee and not of the Securities and Exchange Commission (SEC). The WTC mutual funds are in the custody of the Wilmington Trust Company. The DELRIP investments are stated at fair value, which is the same as the value of the DPERS' Master Trust shares. Further details of the DELRIP investments are disclosed in the DPERS 34th Comprehensive Annual Financial Report, which may be obtained by calling 1-800-722-7300.

Investments at fair value (other than those issued or guaranteed by the U.S. government) in excess of 5% of the Plan's net assets held in trust for pension benefits at June 30, 2005 consist of:

	 raii vaiue	
Delaware Local Retirement Investment Pool Fidelity Investments Short-Intermediate Government Portfolio	\$ 15,531,409 4,401,771	
TOTAL	\$ 19,933,180	

NOTE F - DEFERRED COMPENSATION PLAN

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all County employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional and participants elect how their salary deferrals are invested. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The County is not matching employee contributions. Under custodial agreements, the custodians hold all assets and income in trust for the exclusive benefit of participants and their beneficiaries.

NOTE G - SHORT-TERM DEBT

Short-term financing is obtained from banks to provide working capital for the Enterprise Funds. Interest on the line of credit is variable; the interest rate was 3.84% at June 30, 2005. The County had \$ 24,241,975 of unused line of credit to be drawn upon as needed. Short-term debt activity for the year ended June 30, 2005, was as follows:

	June 30, 2004		Additions		Reductions		June 30, 2005	
Notes payable	\$	881,024	\$	-	\$	123,000	\$	758,024

NOTE H - LONG-TERM LIABILITIES

Description of Bonds Payable

At June 30, 2005, bonds payable consisted of the following individual issues:

	Business-type
1994 wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through December 20, 2034, interest at 4.5%.	\$ 9,054,927
1994 SRF Subordinate Obligations (West Rehoboth Phase I and II); interest at 1.5%, final payment due December 2016. Repayment over 21 years beginning December 1995 from gross revenues of the West Rehoboth Expansion of the Dewey Beach Sanitary Sewer District but on a subordinate basis for the first 13 years to operations and management expenses, 1994 Series Bonds (\$ 19 million), Rural Development Administration loan, other project borrowings and SRF loans. Repayment the last 7 years based on equal installments. The subordinate obligations require various construction, operating and depreciation accounts.	9,756,986
1995 wastewater revenue bonds (West Rehoboth expansion sewer system), due in various installments through June 15, 2025, interest ranging from 4.85% to 5.5%. Debt service will be paid from user fee revenue generated by the West Rehoboth expansion sewer system. The revenue bonds require various project, construction, operating and depreciation accounts.	18,320,000
1995A wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through March 9, 2035, interest at 4.5%.	3,296,824
1995B wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through June 27, 2035, interest at 4.5%.	6,025,439
1995C wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through September 26, 2035, interest at 4.5%.	5,498,816
1995D wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through December 22, 2035, interest at 4.5%.	2,760,158
1996 wastewater general obligation bonds (Ocean Way Estates expansion sewer system), due in quarterly installments of \$ 6,256 principal and interest, interest at 4.5%, final payment due October 17, 2036.	420,327
1997 wastewater general obligation bonds (West Rehoboth expansion sewer system), due in various installments through June 15, 2021, interest at 1.5%. Total bonds authorized are \$ 12,000,000.	8,379,446

Subtotal	149,239,594		
Unamortized bond premium	1,200,540)	
Unamortized bond discount	(4,964	4)	
Deferred amount on refunding, net of amortization	(3,274,476	<u>5)</u>	
TOTAL BONDS PAYABLE	\$ 147,160,694	1	

Deferred amount on refunding is the difference between the reacquisition price and the net carrying amount of the refunded debt, net of amortization. This difference is reported in the accompanying financial statements as a deduction from bonds payable. Amortization of deferred amount on refunding charged to interest expense totaled \$495,143 and \$513,288 for fiscal year 2005 and 2004, respectively.

Defeasance of Debt

In prior years, the County defeased the general obligation bonds of 1975 by placing the proceeds of the new debt in irrevocable trust funds to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and the liabilities for the defeased bonds are not included in the County's financial statements. At June 30, 2005, the amount of defeased debt outstanding but removed amounted to \$ 750,000.

Contract Commitments

The County has obligated itself under contracts for various projects. At June 30, 2005, the obligated unpaid amount was approximately \$25,258,215. The County's payment of these contracts will be contingent upon the contractors' satisfactory performance.

Bonds Authorized but Unissued

Bonds authorized but unissued at June 30, 2005 totaled \$47,410,910. In addition, \$7,000,000 of bonds were authorized subsequent to year end. The bonds are to finance various sewer district construction and improvement projects.

Subsequent to year end, the County approved the issuance of up to \$19,500,000 Series 2005 Wastewater Revenue Refunding Bonds, the proceeds of which will be used to currently refund the 1995 wastewater revenue refunding bonds for the West Rehoboth Expansion Sewer Project.

Capital Lease Obligations

The County leases photocopiers under three to five year lease purchase agreements and a defibrillator under a five-year lease purchase agreement. Monthly lease payments range from \$ 55 to \$ 5,068, and expire from July 1, 2005 through January 31, 2008. Obligations under governmental activities capital leases are as follows:

	Year ending June 30,		Governmental Activities		
2006		\$	115,381		
2007			99,982		
2008			53,966		
	Total minimum lease payments		269,329		
	Less: Amount representing imputed interest costs		9,586		
	PRESENT VALUE OF MINIMUM LEASE PAYMENTS	\$	259,743		

NOTE I - INTERFUND BALANCES

Interfund balances at June 30, 2005 consisted of the following:

Receivable Fund	Payable Fund	Total Amount	Long-term Amount
General fund	Long Neck sewer fund Bethany sewer fund	\$ 17,487 61,114	\$ - 61,114
	West Rehoboth sewer fund Treatment plant - SCRWF Nonmajor enterprise funds	24,794 579,651 13,970,358	5,205,413
	Capital projects fund	101,781 14,755,185	5,368,308
Treatment plant - SCRWF	Long Neck sewer fund Bethany sewer fund West Rehoboth sewer fund Nonmajor enterprise funds	490,560 155,921 819,341 1,035,915	- - -
TOTAL	Troning of Sheetpride Tunds	2,501,737 \$ 17,256,922	\$ 5,368,308

Balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. At June 30, 2005, interfund balances largely represented interim financing for sewer projects, which are to be repaid when the County draws the permanent funding. The long-term portion indicated above is not scheduled to be collected in the subsequent year.

NOTE J - INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2005, consisted of the following:

	T	Transfer from	
		General	
Transfer to:		Fund	
Capital projects fund	\$	7,338,247	
Bethany sewer fund		130,587	
Long Neck sewer fund		477,122	
West Rehoboth sewer fund		639,160	
Treatment plant - SCRWF		154,760	
Nonmajor enterprise funds		8,128,919	
TOTAL	\$	16,868,795	

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and to (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE K - POST EMPLOYMENT BENEFITS

In addition to the pension benefits described in Note E, the County provides post-retirement health care benefits. During fiscal year 2005, the County established the "Sussex County Employment Benefit Plan" by Ordinance No. 1783. The plan is reported in the post-retirement employee benefit fiduciary fund in the County's financial statements. For employees who begin employment with the County prior to July 1, 2001, the County policy is to provide post-retirement healthcare benefits immediately after they leave County employment if they receive a pension at that time. Retirees hired subsequent to June 30, 2001, with 15 to 24 years of service, are eligible for coverage upon receipt of a County pension, with the County paying 50 percent of the premium. Retirees hired subsequent to June 30, 2001, with at least 25 years of service, receive full post-retirement healthcare benefits when they receive their pension. Employees, who began work prior to July 1, 2001, may elect the coverage available as if hired after June 30, 2001. Currently, 108 retirees receive post-retirement healthcare benefits. During fiscal year 2005, expenditures of \$ 715,714 were recognized in the fiduciary fund for post-retirement benefits.

In August 2004, the GASB issued GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions* ("GASB 45"), which establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets) note disclosures, and if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers. The County will implement GASB 45 in fiscal year 2009. The County has not assessed whether this statement will have a significant impact on the County's financial statements.

NOTE L - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; omissions; injuries to employees; and natural disasters for which the County carries commercial insurance. Settlements have not exceeded coverage in the past three years. The following significant reduction in coverage occurred:

Effective July 1, 2002, the Sussex County Council was unable to renew and obtain insurance for the ocean outfall that serves the South Coastal Regional Wastewater Facility. The estimated replacement cost of this outfall is approximately \$ 21,000,000. Since it became operational in 1978, there have been no insurance claims pertaining to the ocean outfall. The estimated cost to the County of a fracture or point failure of the outfall would range from \$ 800,000 to \$ 1,300,000, including the cost of a temporary discharge into the Assawoman Canal. Subsequent to year end, the County obtained insurance coverage on the ocean outfall.

The County is exposed to the risk of loss related to employee medical expenses. During fiscal year 2005, the County maintained a self-insured plan for employee medical expenses in which expenses per employee were covered annually up to \$150,000. Individual excess expenses are covered under a commercial policy. In addition, the County has a maximum aggregate limit of \$7,869,308 for the County's portion of medical expense liability, which is covered under a commercial policy. The County reports the risk management activity in the General Fund. The County recognizes expenditures/expenses in the General Fund, Water Fund and Sewer Funds. The employee health plan is administered by an outside agency.

NOTE L - RISK MANAGEMENT - CONTINUED

Employee Health Plan

Contributions from the County and employee withholdings are deposited into a reserve fund to pay prior-year and current-year claims. Estimated risks and losses are based upon historical costs, financial analyses and estimated effects of plan changes. The claims liability reported at June 30, 2005 is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an amount for claims that have been incurred but not reported. Changes in the employee health claims liability amounts in fiscal year 2005 and 2004 were:

	ginning of ar Balance	Current-Year Claims and Changes in Estimates		Claims Payments			End of Year Balance	
2003 - 2004 2004 - 2005	\$ 620,022 539,124	\$	4,930,459 5,325,472	\$	(5,011,357) (5,456,150)	\$	539,124 408,446	

NOTE M - PROPRIETARY FUNDS CONTRACTS

The County has a contract with the Town of Georgetown for the Town to provide wastewater treatment and disposal for the County's Ellendale Sewer Treatment System. The contract was executed on May 25, 2000 and is in effect for a period of 40 years unless both parties mutually agree to terminate the contract. The County has a contract with the City of Seaford for the purpose of discharging wastewater. The contract is in effect on January 1, 2004 for 10 years with an option to renew for an additional 10 years.

NOTE N - LANDFILL POSTCLOSURE CARE COST

State and federal laws and regulations required the County to place a final cover on its six landfill sites when it stopped accepting waste and to perform certain maintenance and monitoring functions at these sites. The estimated liability for landfill postclosure care of \$4,194,000 at June 30, 2005 represented the cumulative amount reported to date based on the use of 100 percent of the estimated capacity of the landfill. This amount is based on what it would cost to perform all postclosure care in 2005. Actual cost may be higher because of inflation, changes in technology or changes in regulations.

The annual operating costs for maintenance and monitoring the landfill sites will continue to be funded by the County and recorded as a long-term liability in the governmental activities on the Statement of Net Assets.

NOTE O - RENT REVENUES

The County has entered into several long-term operating leases with local businesses to rent property, mainly located in the County's Industrial Park and Airport. These leases range in terms of one year to forty-five years and several of them are noncancelable. Buildings with a cost basis of \$ 2,148,458 and accumulated depreciation of \$ 430,543, equipment with a cost basis of \$ 55,058 and accumulated depreciation of \$ 33,952 and improvements of \$ 9,713 and accumulated depreciation of \$ 3,238 were being leased as of June 30, 2005.

NOTE O - RENT REVENUES - CONTINUED

The minimum future rental revenue under leases as of June 30, 2005 for each of the next five years and in the aggregate are:

Year ending June 30,	Amount	
•••		
2006	\$	224,352
2007		142,732
2008		109,459
2009		99,508
2010		100,755
Thereafter		1,153,935
MINIMUM LEASE PAYMENTS RECEIVABLE	\$	1,830,741

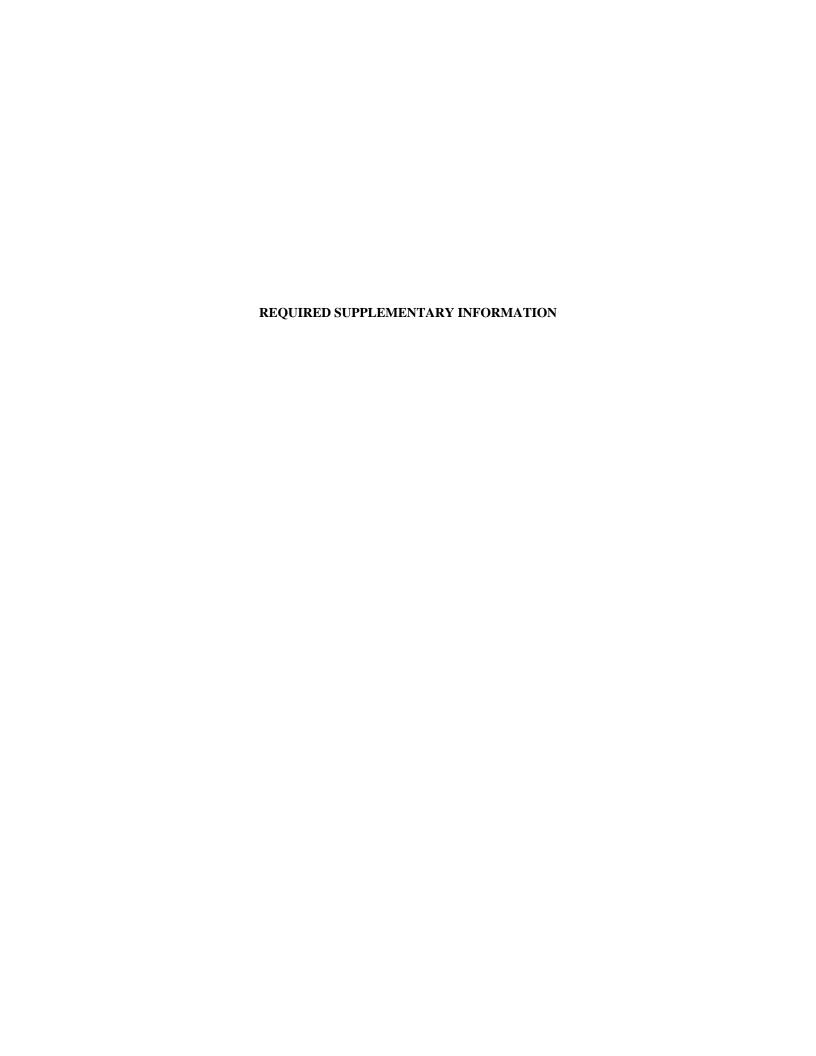

NOTE P - MORTGAGE RECEIVABLE

The County holds a mortgage receivable at June 30, 2005 of \$400,000, which is not reflected on the governmental funds balance sheet. It bears interest of 3%, payable monthly, all principal due on the fourth anniversary of the note. The proceeds were used to finance a portion of the costs of a new airplane hangar and the acquisition of related equipment at the County's airport.

NOTE Q - CONTINGENCIES

The County is currently involved in a number of lawsuits involving construction projects, zoning ordinances, and other civil lawsuits. The amount of any contingent liability related to these suits either cannot be estimated or the outcome is uncertain.

The County has authorized the issuance of revenue bonds to provide funds for various commercial, industrial and agricultural development projects. In the opinion of bond counsel, the bonds are not subject to the debt limit imposed on the County by the Delaware Code, and are payable solely from payments made by the borrowing entities. Accordingly, these bonds are not reflected in the accompanying financial statements.

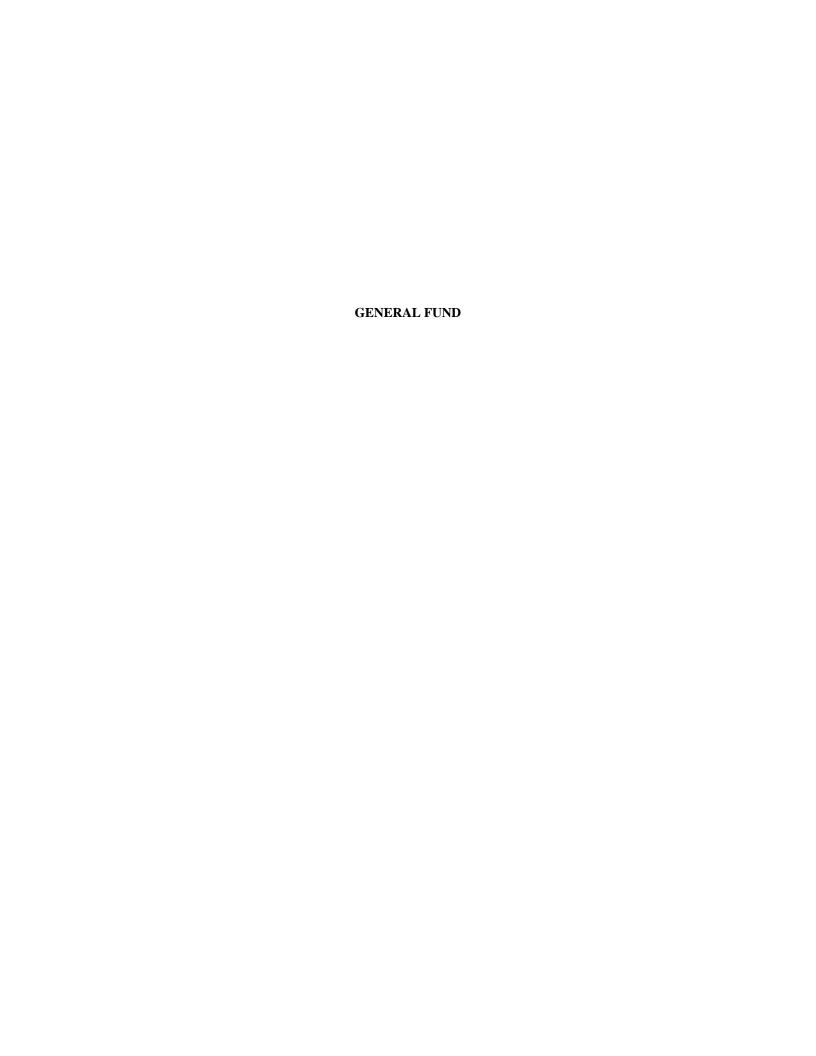

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	Unfunded Actuarial Accrued Liability	Funded Ratio	Covered Payroll	Unfunded Actuarial Accrued Liability as a % of Covered Payroll

- 1. Assessed values reflect the values utilized for initial property tax billings for each fiscal year.
- 2. Real property is appraised based on 1973 market values.
- 3. The assessed value is 50% of the appraised value.
- 4. Assessed value ratio estimates were developed by the University of Delaware.
- 5. Assessed values are based on taxable assessments, excluding exempt properties.

- 1. The city rate shown for Bethany, Lewes, Milton, Rehoboth, Delmar, Dagsboro, Millsboro, Ocean View, Milford, Seaford and Blades are based on assessments established by the individual towns. The other city tax rates are based on County assessments.
- 2. The total tax rates shown here are based on a combined rate regardless of differing assessment methods used by Towns and the County.
- 3. Market value is compared to assessed values (which are based on 50% of 1974 values).
- 4. The Indian River School District charges \$2.289 as its school rate for non-residential properties.

Notes:

- 1. Direct operating expenses do not include depreciation or interest expense, as per the bond indenture.
- 2. Gross revenues do not include capitalization fees, or capital contributions.
- 3. Debt service requirement reflects minimum amounts due for revenue bonds. It does not include any debt service amounts for additional bonds which are paid from district funds and are general obligation bonds. It does not include accrued interest. It does not include interest capitalized prior to the initial date of operations, December 29, 1995.
- 4. The coverage requirement per Bond resolutions is 1.25.
- 5. In April 1994, the County issued \$19,000,000 in revenue bonds which were advance refunded in December 1995 by revenue bonds totaling \$20,825,000.
- 6. In April 1994, the County issued \$13,000,000 and \$4,000,000 in revenue bonds to the State of Delaware program. Debt service for these SRF bonds is based on level debt service payments.
- 7. The West Rehoboth system was under construction during fiscal year 1993, 1994 and 1995 and was placed in service on December 29, 1995. Receipt of revenues began during fiscal year 1996. Debt service paid prior to then was paid from capital funding. Interest was capitalized until fiscal year 1996.
- 8. The following revenue bond issues are included here as part of the debt service requirements:

	Issu	ance Amount
a. Bond Issue 1995	\$	20,825,000
b. Subordinated Obligations 1994 SRF-A		13,000,000
c. Subordinated Obligations 1994 SRF-B		4,000,000

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of Sussex County, Delaware (the County). The County's reporting entity is defined in Note A of the notes to basic financial statements. Federal awards that are passed through other governmental agencies are included on the schedule.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the accrual and the modified accrual bases of accounting, which are described in Note A of the notes to basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE B - LOANS

The County had the following federal expenditures funded by loans from the U.S. Department of Agriculture and the U.S. Environmental Protection Agency during the year ended June 30, 2005.

Cluster/Program Title	Federal CFDA Number	 Loan Amount
Water and Waste Disposal Systems for Rural Communities	10.760	\$ 1,877,696

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Council Sussex County, Delaware Georgetown, Delaware

Compliance

We have audited the compliance of Sussex County, Delaware with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2005. Sussex County, Delaware's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Sussex County, Delaware's management. Our responsibility is to express an opinion on Sussex County, Delaware's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Sussex County, Delaware's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Sussex County, Delaware's compliance with those requirements.

In our opinion, Sussex County, Delaware complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005.

Internal Control Over Compliance

The management of Sussex County, Delaware is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Sussex County, Delaware's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Internal Control Over Compliance - Continued

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management, the County Council, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Jefferson, Urian, Doane & Sterner, P.A.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Council Sussex County, Delaware Georgetown, Delaware

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Sussex County, Delaware as of and for the year ended June 30, 2005, which collectively comprise Sussex County, Delaware's basic financial statements and have issued our report thereon dated November 28, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Sussex County, Delaware's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Sussex County, Delaware's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted certain other matters that we reported to management of Sussex County in a separate letter dated November 28, 2005.

This report is intended solely for the information and use of management, the County Council, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Georgetown, Delaware November 28, 2005 Jefferson, Urian, Doane & Sterner, P.A.

PART A. - SUMMARY OF AUDITOR'S RESULTS

- The auditor's report expresses an unqualified opinion on the basic financial statements of Sussex County, Delaware.
- 2. No reportable conditions relating to the audit of the basic financial statements are reported in the Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.
- 3. No instances of noncompliance material to the financial statements of Sussex County, Delaware, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
- 4. No reportable conditions relating to the audit of internal control over major federal award programs are reported in the Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and Internal Control Over Compliance in Accordance with OMB Circular A-133.
- 5. The auditor's report on compliance for the major federal award programs for Sussex County, Delaware expresses an unqualified opinion on all major federal programs.
- 6. No audit findings are required to be reported in accordance with Section 510(a) of OMB Circular A-133.
- 7. The programs tested as major programs include:

PROGRAM NAME	CFDA#
Water and Waste Disposal Systems for Rural Communities	10.760
Home Investment Program	14.239
Airport Improvement Program	20.106

- 8. Type A programs are identified as any program over \$ 300,000. All other programs are considered to be Type B programs.
- 9. Sussex County, Delaware qualified as a low-risk auditee.

PART B. - FINDINGS RELATED TO THE FINANCIAL STATEMENTS REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

None - Current and Prior

PART C. - FINDINGS RELATED TO THE FEDERAL AWARDS

None - Current and Prior
