Administrator's  
Report

Mr. Stickels read the following information in his County Administrator's Report:

1. C/U 1434 – Grady, Inc.

I have included with this report a copy of a memorandum from Brian Page, Historic Preservation Planner, regarding C/U 1434. It is Mr. Page's recommendation that the County Council require the developer to retain a State approved archaeologist to delineate the boundaries of the cemetery prior to the Council voting on approval of this project. Mr. Page also believes that a maintenance and management plan should be developed to ensure long-term protection of this site and that the County should require the developer to relocate the proposed stormwater pond from such close proximity to the site. It is believed that the special nature of the Native American graves in our State and their comparative rarity mark this site as a very significant area.

If there are no objections from the Council, I will place this item on the agenda for discussion on April 9, 2002.

2. Holiday Schedule

Sussex County offices will be closed Friday, March 29, 2002, to allow employees to observe the Good Friday holiday. Offices will reopen on Monday, April 1, 2002, at 8:30 a.m.

There will not be a Council meeting the week of April 2, 2002. The next regularly scheduled Council meeting will be at 10:00 a.m. in the Council Chambers on Tuesday, April 9, 2002.

<b>Conflict of Interest</b>	<b>Mr. Dukes excused himself from the meeting due to a possible conflict of interest with the application of Gary Watson for Subdivision No. 2001-7.</b>	
<b>Public Hearing/ Appeal/ Subdivision No. 2001-7/ Gary Watson</b>	<b>A Public Hearing was held on an appeal of the Sussex County Planning and Zoning Commission's decision to deny an application of Gary Watson for the subdivision of land in an AR-1 Agricultural Residential Zoning District in Broad Creek Hundred, Sussex County, by dividing 41.86 acres into 37 lots, located north of Road 465, 2,340 feet west of Road 479 (Subdivision No. 2001-7).</b>	
	<b>This application originally received preliminary approval on January 28, 1999; a revised preliminary approval was granted on February 25, 1999; the Planning and Zoning Commission denied a six-month time extension on March 1, 2001; and the application was voided.</b>	
	<b>The applicant reapplied and the Planning and Zoning Commission held a Public Hearing on the application for subdivision on May 24, 2001. On June 14, 2001 the Planning and Zoning recommended that the application be denied for the following reasons:</b>	
	<b>(1) Concerns about the poultry houses in the area on adjacent parcels. (2) Concerns about the project being built. (3) Concerns about the present up-keep of the site at this time.</b>	
	<b>Mr. Watson appealed the Commission's decision and the County Council held a Public Hearing on the appeal on August 28, 2001. On that date, action was deferred pending further review of the record. The County Council discussed the application on December 4, 2001 and remanded the application back to the Planning and Zoning Commission with instructions that the Planning and Zoning Commission provide a more detailed analysis of their reasons for denial.</b>	

**Public  
Hearing/  
Appeal/  
Subdivision  
No. 2001-7/  
Gary  
Watson  
(continued)**

**The Planning and Zoning Commission discussed the application on January 10, 2002 and recommended again that the application be denied based on the following reasons:**

1. The proposed 37 lot subdivision does not meet the purpose of the Subdivision Ordinance in that it does not protect the orderly growth of the County because the proposed site is currently devoted to poultry uses, is adjacent to poultry and agricultural uses, and constitutes an intrusion into a primarily agricultural area which is to be given priority and preference because of noise, dust, odors, and the use of chemicals.
2. The proposed 37 lot subdivision does not meet the purpose of the Subdivision Ordinance in that it does not encourage the preservation and conservation of farmland because the land use in this vicinity is primarily agricultural, the application would remove 41.86 acres, more or less, from agricultural use and may encourage further conversion of farmland to development.
3. The proposed 37 lot subdivision does not address the concerns raised in the record of opposition, that is: children's safety in the area; increase in traffic to the area; adverse effect on property values, and no evidence of any need for additional residential development in the area.

The applicant again filed an appeal and the Public Hearing before the Sussex County Council was scheduled for this date.

The County Council found that Gary Watson, applicant, and David Rutt, attorney, were present on behalf of the application. Mr. Rutt stated that this property was approved as a subdivision in 1999; that due to a "procedural snafu", the request for an extension was filed three days late; that the application was denied as being untimely; and that the plan was then resubmitted. Mr. Rutt advised that the new plan is essentially the same as the previously approved plan with the exception of additional foresting buffers and changes to the street and curb design. Mr. Rutt noted that there were no objections from the TAC Committee on the subdivision application and that there were no objections from any agencies.

Mr. Rutt referred to the reasons for the Planning and Zoning Commission's denial of the application. Mr. Rutt stated, in reaching their decision, the Commission ignored certain facts, ordinances, and the 1997 Comprehensive Plan. He stated that the property is in a Development District; on the south and east of the property are residential lots; that the adjacent lot which contains chicken houses is surrounded by housing; that the approved subdivision known as Chipman's Chase is south of the property and that this subdivision is sold out; that, also to the south is Shady Acres, a mobile home park; and that this property is located in an area for sewer and water expansion from the Town of Laurel. Mr. Rutt stated that these facts show that this area is the logical place for development.

Public  
Hearing/  
Appeal/  
Subdivision  
No. 2001-7/  
Gary  
Watson  
(continued)

**Mr. Rutt referred to the Commission's reasons for denial, which included the statement that the site is currently devoted to poultry uses and that it is an intrusion to a primarily agricultural area. Mr. Rutt stated that this statement is contrary to: (1) the intent of the Comprehensive Plan; (2) the purpose of the statute, and (3) the purpose of the ordinance. Mr. Rutt stated that the Commission's comment that the application may encourage further conversion of farmland to development is speculative. Mr. Rutt stated that the Commission's comment regarding children's safety and increased traffic has no factual basis.**

**Mr. Rutt referred to the seventeen criteria in the Subdivision Ordinance and stated that the criteria has flaws; that any of the criteria can be "arbitrary and capricious"; and that the criteria need to be "tightened up".**

**Mr. Rutt expressed his opinion that the decision of the Planning and Zoning Commission should be reversed since the findings of the Commission are not supported by the record.**

**There were no public comments and the Public Hearing was closed.**

**M 206 02

**A Public Hearing was held to consider extending the Dagsboro-Frankford Sanitary Sewer District (DFSSD) to include the lands of George Oliver, situate, lying north of Honolulu Road, and being in Dagsboro Hundred, Sussex County, Delaware. Mr. Izzo, County Engineer, discussed extending the boundaries of the Dagsboro-Frankford Sanitary Sewer District to include the 1.1 acre lot with a single family home owned by Mr. Oliver.
