Proposed Ordinance/ Election Districts	Mr. Stickels submitted for Council's consideration a Proposed Ordinance entitled "AN ORDINANCE TO REPEAL ORDINANCE NO. 1500 RELATING TO COUNCILMANIC ELECTION DISTRICTS AND ADOPTING COUNCILMANIC ELECTION DISTRICTS". Ordinance No. 1500 was adopted on October 30, 2001; since that time, the Department of Elections has requested that the County Council approve changes to be made to the Election District Map for Sussex County. Mr. Ken McDowell of the Sussex County Department of Elections and Mr. Dick Carter, (who assisted the County's legal department in drafting the redistricting boundaries) explained that nine pockets of voters did not fit into the formula used to determine district boundaries. The "pockets", which are too small to make a voting district, would be absorbed into another election district. Mr. Carter delineated each of the "pockets" on the map.  Mr. Stickels advised that the primary reason for the boundary changes is to save money. The savings will be \$360,000.00 over a 10 year period.

**Millville/ North Millville Sewer Service Area/ Contract Amendment**      Mr. Archut, Assistant County Engineer, discussed a proposed Contract Amendment with Whitman, Requardt & Associates to prepare a preliminary engineering report for the Millville/North Millville sewer service area. Mr. Archut advised that in January, 2002 he reported to Council on the proposed boundary for the Millville/North Millville Planning Area. The proposed boundary included the Town of Millville and areas north of the Town of Millville. It was the consensus of Council, in January, to move forward with the planning study for this area. Since that time, the County has been approached by a developer (Bay Forest LLC) who wanted other areas to be included in the planning area. Mr. Archut advised that this would push development out into the Holts Landing area. The developer has sent a letter of commitment stating that they want to be a part of the planning study.

Mr. Archut advised that the total cost of the contract is \$104,942.00; the County's share would be \$54,995.00 and the Holt's Landing portion would be \$49,947.00. The developer would be responsible for all the costs associated with looking at the entire Holts Landing area. Mr. Archut stated that if the County Council agrees, the County will enter into a formal agreement with the developer.

<b>Millville/ North Millville Sewer Service Area</b>	<p><b>Mr. Archut</b> pointed out that the agreement will be a big benefit to the County and the homeowners in the area since: (1) it allows the County to do the planning for the entire area so that both places are inter-linked (Holts Landing and North Millville could share facilities), (2) it allows the County to establish a regional framework for the future, and (3) it saves the County the cost of doing the planning study for the Holts Landing area.</p>

Public  
Hearing  
(C/Z  
No. 1469)

A Public Hearing was held on the Proposed Ordinance entitled "AN ORDINANCE TO AMEND THE COMPREHENSIVE ZONING MAP OF SUSSEX COUNTY FROM AN AR-1 AGRICULTURAL RESIDENTIAL DISTRICT TO A MR-RPC MEDIUM DENSITY RESIDENTIAL DISTRICT – RESIDENTIAL PLANNED COMMUNITY FOR A CERTAIN PARCEL OF LAND LYING AND BEING IN BALTIMORE HUNDRED, SUSSEX COUNTY, CONTAINING 139.367 ACRES, MORE OR LESS" (Change of Zone No. 1469) filed on behalf of Caroline Development, Inc.

The Planning and Zoning Commission held a Public Hearing on this application on May 23, 2002. The Commission deferred action.

The record of the Planning and Zoning Commission was incorporated into the record of this Public Hearing.

The Council found that James Fuqua, Attorney, was presented on behalf of the Applicant, Caroline Development, Inc., and stated in his presentation and in response to questions raised by the Council that this application is for a MR-RPC to be known as Seagrass Plantation; that they plan to maintain the AR density; that two main issues came up at the Planning and Zoning Commission's Public Hearing – density and the proposed commercial use; that they will maintain a gross density of 1.7 units to the acre (under the RPC Ordinance, the density will be 2.1 units to the acre); that this is a low density project; that the application is for 2.11 acres with a maximum of 10,000 square feet of commercial use; that the commercial use will be a convenience-type store; that the commercial use will be located at the entrance on Irons Lane; that the entrance to the commercial use will be from the access road to the development; that the commercial use will be convenient to the development and reduce trips onto Route 26; that this project will be sold as a house-lot package; that the borrow pits located on the site will be reclaimed and converted into an amenity; that recreational amenities will be provided; that there will 124 single family lots and 84

townhouses; that Tidewater Utilities will provide water service; that the pesticide and herbicide issues at Bay Colony have been remedied by the installation of wells at deeper depths; that the project will be served by County sewer; that the site is within the Development District; that the Engineering Department has indicated that they want to do further study on the capacity in the area; that the developer will work with the County Engineering Department on whatever improvements need to be done; that there is a cemetery on the site which will be preserved; that a dump site does not exist on the site; that the Bennett Home has been referenced by Mr. Wayne Mellin as eligible for historic registry and a Cultural Resource Survey has been filed; and that it was the intention of the Developer to tear the home down.

Public comments were heard. Comments were made that the proposed development is an improvement to the existing site. Concern was expressed that when the development is turned over to a Property Owners Association, that the access they have now will be taken away.

Mr. Fuqua stated that no property owner will be land-locked as a result of this application and that, in fact, future easement agreements will be executed reconfirming that the property owners have access through the development to get to Irons Lane.

Comments were made that the proposed density of the development along with the proposed commercial use will create real traffic problems.

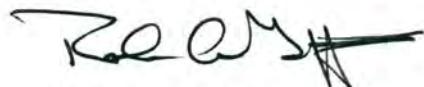

The Public Hearing was closed.

It was the consensus of Council to defer action and to leave the record open until June 30, 2002 for comments from the County Engineering Department and thereafter, that the record will remain open until the close of business on July 10, 2002 for comments relating to the information submitted by the County Engineering Department.
