Memorandum

To: Sussex County Planning Commission Members
From: Christin Scott, Planner I
CC: Vince Robertson, Assistant County Attorney and Applicant
Date: October 28, 2021
RE: Staff Analysis for CU 2314 Millsboro Fire Company

This memo is to provide background and analysis for the Planning Commission to consider as a part of application CU 2314 Millsboro Fire Company to be reviewed during the November 4, 2021 Planning Commission Meeting. This analysis should be included in the record of this application and is subject to comments and information that may be presented during the public hearing.

The request is for a Conditional Use for Tax Parcel: 133-20.00-17.16 to allow for a fire department substation. The parcel is lying on the northeast corner of Lewis Road (S.C.R. 409) and Millsboro Highway (Rt. 24). The parcel consists of 0.154 acres +/-.

The 2018 Sussex County Comprehensive Plan Update (Comprehensive Plan) provides a framework of how land is to be developed. As part of the Comprehensive Plan, a Future Land Use Map is included to help determine how land should be zoned to ensure responsible development. The Future Land Use map in the plan indicates that the parcel has a designation of "Developing Area." The surrounding and adjacent to the north, south, and east also contain the "Developing Area" land use designation. The properties on the opposite side of Lewis Road contain the "Low Density" land use designation. The property on the southwest side of Millsboro Highway contains the "Industrial" land use designation.

As outlined within the 2018 Sussex County Comprehensive Plan, Developing Areas are newer, emerging growth areas that demonstrate the characteristics of developmental pressures. Most of the proposed Developing Areas are adjacent to municipalities, within or adjacent to potential future annexation areas of a municipality, or adjacent to Town Centers. – A range of housing types are appropriate in Developing Areas, including single family homes, townhouses, and multi-family units. In selected areas and at appropriate intersections, commercial uses should be allowed. A variety of office uses would be appropriate in many areas. Portions of the Developing Areas with good road access and few nearby homes should allow for business and industrial parks. Appropriate mixed-use development should also be allowed. In doing so, careful mixtures of homes with light commercial and institutional uses can be appropriate to provide for convenient services and to allow people to work close to home.

The subject property is zoned Agricultural Residential (AR-1). The adjacent properties to the north, south, east and west of the subject sites are also zoned Agricultural Residential (AR-1). A property further west on the south side of Millsboro Highway is zoned Light Industrial (LI-2).

Since 2011, there has been one (1) Conditional Use application within a 1-mile radius of the application site. Conditional Use No. 2008 was approved by the Sussex County Council on

Tuesday, April 21, 2015, through Ordinance No. 2395, to allow for a trucking business and parking of vehicles.

Based on the analysis of the land use, surrounding zoning and uses, the Conditional use to allow for a fire department substation, subject to considerations of scale and impact, could be considered as being consistent with the land use, area zoning and surrounding uses.

Check List for Sussex County Planning & Zoning Applications

The following shall be submitted with the application

- ✓ Completed Application
- ✓ Provide eight (8) copies of the Site Plan or Survey of the property
 - Survey shall show the location of existing or proposed building(s), building setbacks, parking area, proposed entrance location, etc.
 - Provide a PDF of Plans (may be e-mailed to a staff member)
 - Deed or Legal description
- ✓ Provide Fee \$500.00
- ✓ Optional - Additional information for the Commission/Council to consider (ex. architectural elevations, photos, exhibit books, etc.) If provided submit 8 copies and they shall be submitted a minimum of ten (10) days prior to the Planning Commission meeting.
- ✓ Please be aware that Public Notice will be sent to property owners within 200 feet of the subject site and County staff will come out to the subject site, take photos and place a sign on the site stating the date and time of the Public Hearings for the application.
- ✓ DeIDOT Service Level Evaluation Request Response
- NA PLUS Response Letter (if required)

The undersigned hereby certifies that the forms, exhibits, and statements contained in any papers or plans submitted as a part of this application are true and correct.

I also certify that I or an agent on my behalf shall attend all public hearing before the Planning and Zoning Commission and the Sussex County Council and any other hearing necessary for this application and that I will answer any questions to the best of my ability to respond to the present and future needs, the health, safety, morals, convenience, order, prosperity, and general welfare of the inhabitants of Sussex County, Delaware.

STATE OF DELAWARE
DEPARTMENT OF TRANSPORTATION
800 BAY ROAD
P.O. BOX 778
DOVER, DELAWARE 19903

NICOLE MAJESKI
SECRETARY

August 4, 2021

Mr. Jamie Whitehouse, Director
Sussex County Planning & Zoning
P.O. Box 417
Georgetown, DE 19947

Dear Mr. Whitehouse:

The Department has completed its review of a Service Level Evaluation Request for the **Millsboro Fire Company** proposed land use application, which we received on July 29, 2021. This application is for an approximately 1.54-acre parcel (Tax Parcel: 133-20.00-17.16). The subject land is located on the northeast corner of Millsboro Highway (State Route 24) and Mumford Road (Sussex Road 409). The subject land is currently zoned AR-1 (Agriculture Residential) with a conditional use approval to replace the existing house and garage with a Fire Department Substation.

Per the 2019 Delaware Vehicle Volume Summary, the annual average and summer average daily traffic volumes along Millsboro Highway from Delaware Avenue to Phillips Hill Road, are 4,790 and 6,159 vehicles per day, respectively. The annual average daily traffic volume along Mumford Road is 1,140 vehicles per day.

Based on our review, we estimate that the above land use will generate fewer than 50 vehicle trips in any hour and fewer than 500 vehicle trips per day. These numbers of trips are DeIDOT's minimum warrants for determining that a Traffic Impact Study (TIS) should be required for a particular development. Because the proposed land use would not meet these warrants, we consider the development's traffic impact to be negligible in the context of our agreement with the County regarding land development coordination and we do not recommend that the applicant be required to perform a TIS for the subject application. DeIDOT's description of this application as negligible with regard to warranting a TIS does not mean that it is negligible in other respects. We recommend that the applicant not be required to perform a TIS for the subject application.

If the County approves this application, the applicant should be reminded that DeIDOT requires compliance with State regulations regarding plan approvals and entrance permits, whether or not a TIS is required.

Mr. Jamie Whitehouse

To whom it may concern,

In regards to the request from the leadership of the Millsboro Volunteer Fire Company in an attempt to gain support on future endeavors to obtain additional property for the use of establishing a secondary substation west side of Dupont Boulevard. Following several conversations with Millsboro Fire Chief Dennis Swain, it was explained that with the current traffic conditions additionally showing no signs of relief in or around the town of Millsboro along with the majority of their responding members residing west of Dupont Boulevard, we also feel it would be beneficial to the citizens of the Millsboro Fire Company's current response area and support their decision in obtaining this property. Should anyone have any further questions from the leadership of the Dagsboro Volunteer Fire Department in reference to this matter please feel free to reach out to us at any time.

Respectfully Submitted,

Dylan Betts

Dear Ron,

The Officers and Members of Georgetown Fire Company submit this correspondence as a letter of support for Millsboro Fire Company and its endeavors towards establishing a substation. Millsboro has been, and continues to be, a well-managed and dedicated partner in the delivery of Fire, Rescue and EMS service and the addition of a substation will serve to improve their already unwavering performance.

Therefore, we respectfully request the Commission grant Millsboro Fire Company permission to operate a substation within their district.

Dear Friends and Neighbors,

The Millsboro Fire Company is looking to purchase the property at Millsboro Highway and Lewes Road to utilize it as a substation.

We currently have thirty-two volunteer members living west of US 113.

With the increasing traffic and the rapid growth of our community, The Millsboro Fire Company is trying to look forward and serve our community in the best way possible.

By having a substation on the west side, our response time to the station would be greatly reduced as well as to the safety of our volunteers responding to the station.

We hope to be good neighbors and stewards to both the families living around this property as well as the community.

Please support our endeavor by signing this letter of intent to help us help you.

Dear Friends and Neighbors,

The Millsboro Fire Company is looking to purchase the property at Millsboro Highway and Lewes Road to utilize it as a substation.

We currently have thirty-two volunteer members living west of US 113.

With the increasing traffic and the rapid growth of our community, The Millsboro Fire Company is trying to look forward and serve our community in the best way possible.

By having a substation on the west side, our response time to the station would be greatly reduced as well as to the safety of our volunteers responding to the station.

We hope to be good neighbors and stewards to both the families living around this property as well as the community.

Please support our endeavor by signing this letter of intent to help us help you.

Dear Friends and Neighbors,

The Millsboro Fire Company is looking to purchase the property at Millsboro Highway and Lewes Road to utilize it as a substation.

We currently have thirty-two volunteer members living west of US 113.

With the increasing traffic and the rapid growth of our community, The Millsboro Fire Company is trying to look forward and serve our community in the best way possible.

By having a substation on the west side, our response time to the station would be greatly reduced as well as to the safety of our volunteers responding to the station.

We hope to be good neighbors and stewards to both the families living around this property as well as the community.

Please support our endeavor by signing this letter of intent to help us help you.

Thank you for your support,

Dear Friends and Neighbors,

The Millsboro Fire Company is looking to purchase the property at Millsboro Highway and Lewes Road to utilize it as a substation.

We currently have thirty-two volunteer members living west of US 113.

With the increasing traffic and the rapid growth of our community, The Millsboro Fire Company is trying to look forward and serve our community in the best way possible.

By having a substation on the west side, our response time to the station would be greatly reduced as well as to the safety of our volunteers responding to the station.

We hope to be good neighbors and stewards to both the families living around this property as well as the community.

Please support our endeavor by signing this letter of intent to help us help you.

Thank you for your support,

Good afternoon Holly,

I wanted to make sure someone from the Millsboro Fire Company had reached out to you regarding the Planning & Zoning public hearing scheduled for Thursday, November 4 at 3pm.

The fire company is in the process of purchasing a parcel of property at 30134 Millsboro Hwy in Millsboro, for use as a sub-station. As you know, traffic in and around Millsboro has increased dramatically over the past few years, to the point where it is extremely difficult for our volunteers who reside on the West side of Rt. 113 to respond to the fire house in a timely manner. This situation is increased during the summer months and on weekends, when the traffic is at it's heaviest.

In order to provide the best possible Fire and EMS coverage to the residents of the Town of Millsboro as well as the surrounding community, the Fire Company determined that a sub-station on Rt. 24 on the western side of Rt. 113 would allow our members to respond in both a safe and timely manner. The site we've selected already has a garage located on property and offers an excellent opportunity for our organization to be up and running quickly.

The Fire Company presented it's case before the Delaware State Fire Prevention Commission in July and was given a temporary permit to operate an emergency sub-station at the property mentioned above. We have been working with George Smith and Rachel Bleshman of Sergovic, Carmean, Weidman, McCartney & Owens and also Christin Scott in the County office in order to secure a Conditional Use for the property, and have been placed on the P & Z schedule for this Thursday and 3pm.

I would be more than happy to answer any questions or concerns you may have regarding this issue. I look forward to meeting you on Thursday.

Respectfully,
Ron O'Neal
President
Millsboro Fire Company
